

JAPANESE LOSE TEN THOUSAND MEN IN GENERAL ASSAULT ON PORT ARTHUR

LA FOLLETTE WINS IN WISCONSIN

ROBERT M. LA FOLLETTE.

Bolting Stalwarts Are Turned Down by the Decision of the Supreme Court.

MADISON, Wis., October 5.—The Supreme Court to-day decided the La Follette ticket regular. Three judges, Marshall, Dodge and Winslow, were for the La Follette faction, while Chief Justice Cassoday dissented. The opinion will be filed later by Justice Marshall. After setting forth the facts alleged in the complaint and in the answer filed the decision continues:

THE DECISION.

1. The controversy shown to exist by the foregoing sufficiently concerns the prerogatives of the State and affects the liberties of the people to be within the original jurisdiction of this court.

2. Such controversy is of so grave a character and of such public importance as to warrant this court in exercising its original jurisdiction to determine the right of matter, so far as the door is open for it to do so.

3. Since the question presented merely involves the duty of the Secretary of State from the performance of an act especially enjoined by law, it is a judicial one.

4. For the present case, the time not having arrived when the Secretary of State is required to make certificate of nominations, by the general rule there is no remedy at law by mandamus, hence, if

maintainable at all, is properly brought in equity, if the Legislature has not furnished another and exclusive remedy.

5. The Legislature intended to provide for settlement out of court of all questions between factions of a party concerning right to place the party named upon the official ballot, by Section 35, Wisconsin Statutes in these words:

DIVISION IN PARTY.

(a) "In the case of a division in any political party, and a claim by two or more factions thereof to the same party name, the officer with whom the certificates of nomination are required to be filed, shall, in certifying such nomination or preparing ballots, give preference of name to the convention or caucus thereof held pursuant to the call of the regularly constituted party authorities and if the committee representing the other faction present no other party names, such officer may designate the name in such manner as will best distinguish the nominations thereof."

(b) "When two or more conventions or caucuses shall be held and the nominations thereof certified, each claiming to be the regular convention or caucus of the same political party, preference in

IN OYAMA IS VERY CAUTIOUS

He is Waiting for Good News From Port Arthur.

The expected battle between the Russian Manchurian army and Marshal Oyama's forces has not yet occurred, and today's advices do not indicate any developments of an important character on the part of either army.

The opinion seems general that the next battle of a decisive nature will occur at Tlie pass.

Lieutenant General Stoessel reports that the Japanese losses in the attacks on Port Arthur from September 18 to September 23 were 10,000. He adds that the Japanese are now working actively and approaching by entrenchments and a tunnel.

The success of the Russian resistance at Port Arthur is believed in St. Petersburg to have a bearing on Oyama's failure to attack Kuropatkin.

THEATER OF WAR.

TOKIO, October 5 (6 p. m.).—It is evident that the country, which is embraced by an irregular triangle, the apex of which is Tlie pass, with the base running from Mukden to Fushun on the upper reaches of the Hun river, will soon be the theater of extended and extensive military operations.

MAIN BASE.

The Russians apparently are using Tlie pass as their main base and are constructing a series of defenses to shield it from the south and east. Two roadways approach Tlie pass from the south. One of these roadways is the main highway from Mukden and the other, which is smaller, starts at Fushun, and winds through a hilly country. Nineteen miles north of Mukden is the town of Yllu, the southern and eastern approaches to which are sheltered by sharp ridges, offering a strong natural protection. It is reported here that the Russians are strongly entrenching in these ridges and are erecting semi-permanent fortifications. The Yllu river, which is shallow and fordible, runs through the town.

FORTIFYING.

The Russians are reported to be fortifying the right bank of this river between Yllu and Tahaitun, fifteen miles to the northward. Several lines of ridges cross the road, and it is said that the Russians are erecting works on many of these eminences between Tahaitun and Tlie pass. For some seven miles the country, generally speaking, is flat, although commanding the roadway from the eastward is a hill a thousand metres in height, which the Russians are fortifying. A range of hills flank Tlie pass on the eastward.

The Russians are holding Fushun with a heavy force, and it is believed they are erecting works along the road from that place to Tlie pass.

DEFENSIVE WORK.

This defensive work of the Russians and the disposition of their forces strengthens the belief that General Kuropatkin more fully intends to retard Field Marshal Oyama in his crossing of the Hun river and to give battle on the ground which he is now hurriedly fortifying.

ONE KILLED IN A TRAIN WRECK.

WASHINGTON, October 5.—A passenger train on the Augusta Southern Railway ran into a burning trestle near Mitchell, Ga., today. W. S. Hurley, baggage master, was killed and eight others injured.

BON VOYAGE WINS.

LEXINGTON, Ky., October 5.—Bon Voyage won the two-year-old Futurity, \$5000 (trotting) in two straight heats. Lathrop L. second, Bertha Bennett third. Time, 2:15, 2:15.

STARTLING CHARGES MADE.

N. W. Benedict Says His Wife Harbored Anarchists.

Startling in the extreme is the charge made by Nelson W. Benedict against his wife, Hilda Clevenger Benedict, in the testimony before the Court Commissioner, a copy of which testimony was filed this morning with Judge Ellsworth.

Benedict informs the court that his wife made his home a rendezvous for Anarchists and Socialists while he was out of the city and that, during President Roosevelt's visit to Oakland she harbored there one Holmes, an anarchist. The implication is that such plots as these might have been suggested for the assassination of President McKinley may have been considered while Mrs. Benedict and her anarchist associates gathered for consultation in secret at the Benedict home during President Roosevelt's visit to the coast.

SHE DISAPPEARED.

Mrs. Benedict disappeared three months ago from this city simultaneously with Rev. Charles Wayland Hoag, pastor of the Plymouth Avenue Congregational Church, and for weeks the city buzzed with gossip of the case.

Benedict had brought suit for divorce before his wife's disappearance. Default was entered against Mrs. Benedict, who failed to answer her husband's complaint, and it then became the commissioner's duty to hear testimony in the case.

Mr. Benedict charges in his testimony, which Judge Ellsworth has now before him for consideration, that his wife has made his home a rendezvous for anarchists. Socialists and other dangerous characters during his absence from Oakland, which were frequent, being necessitated by his business.

ANARCHIST AT HOME.

Mrs. Benedict is charged by her husband with entertaining at the Benedict home during the visit of President Roosevelt to this city in the summer of 1903 an anarchist named Holmes, or known to him by that name. Other persons of tendencies and character similar to this man Holmes found rendezvous at Benedict's home while he was away and, according to the husband's sworn statements, his house practically became the hiding place of a gang of avowed law-breakers, who might, at any moment, in line with their beliefs, have prepared the plan to send a bullet through President Roosevelt's body, as one of similar beliefs and sentiments had done with President McKinley in Buffalo.

Mrs. Benedict is declared by her husband to be the smartest, brightest woman he ever met. She was a graduate of the Los Angeles High School and met Benedict there.

WAS A DETECTIVE.

In his testimony before the Court Commissioner Mr. Benedict revealed the fact that for four years of his life he was employed as a detective by the Hinkerton Detective Agency, and this explains the success he declares he achieved in

JAPANESE ARE HIT HARD.

Ten Thousand Men Killed in General Assault.

ST. PETERSBURG, October 5.—Lieutenant-General Stoessel says the Japanese losses were 10,000 during the attacks on Port Arthur from September 19 to September 22.

He reports that no incident occurred from September 23 to September 26, excepting outpost skirmishes.

General Stoessel adds that practically nothing remained of the water works redoubts when the surviving Russians evacuated them.

The last Japanese attack to which General Stoessel refers was on a hill called High Mountain, south of Inthan (Etashan or Mountain).

He gives instances of the heroism of the defenders, especially the case of a lieutenant, who threw bombs into the Japanese trenches, causing a panic.

Colonel Irman, chief of the Port Arthur artillery, is praised for the magnificent disposition of the guns.

General Stoessel's dispatch, which was dated September 30, says:

"After bloody assaults from the 19th to the 23rd of September there has been comparative tranquillity around the fortress. On the night of September 23d the Japanese, after being repulsed by Lieutenant Pogorsky, fled in panic. They are now working actively and are approaching by a tunnel and entrenchments. The bombardment was maintained both upon the forts and the buildings within the fortress.

"We make sorties frequently, driving back the enemy. The repulse of the last attack was especially due to Lieutenant Pogorsky, General Kondratenko, Colonel Irman and Captain Syehoff. The spirit of the troops is heroic. Wounded men are every day returning from the hospitals to the ranks.

"We pray to God for victory and for the health of Your Majesty."

POSTOFFICE FLAG AT HALF-MAST

The flag on the Oakland Postoffice is flying at half-mast out of respect to the memory of the late Postmaster-General Payne, who died last evening at Washington, D. C. As soon as the news of Postmaster-General Payne's death reached Oakland, Postmaster T. T. Dargie ordered that the flag be lowered at half-mast. According to Postoffice regulations, no other symbol of mourning is allowed to be displayed.

tracing his recent wife's movements from the time she left Oakland to the time she returned here a few weeks ago. Benedict declares that he had no difficulty in ascertaining that Rev. C. Wayland Hoag and Mrs. Benedict lived in Dallas, Texas, to which place they went after leaving Oakland, and from thence traveling over the southwestern part of the country.

It is deemed unusual that Benedict makes no charge against his wife in his divorce complaint regarding these wanderings of hers in the company of the Oakland minister, but is content to charge her with cruelty, citing, among other things which may prove his allegation, the use she made of his home to entertain anarchists and Socialists in his absence.

NO WAR NEWS REACHES CHE FOO

CHE FOO, October 5 (Evening).—No news, either of Russian or Japanese operations at Port Arthur, reached Che Foo today.

HE DIED CROSSING THE OCEAN

THE LATE LOUIS WUNN.

Louis Wunn of This City Passes Away While Coming Home.

NEW YORK, October 5.—Louis Wunn of Oakland, Cal., who was returning to his home after a trip abroad, died suddenly on the steamer Kaiser Wilhelm der Grosse, on the passage from Bremen and Southampton. His body was landed at the latter place. The facts were not learned until the arrival of the steamer here to-day.

The above telegram was shown to Mrs. Louis Wunn at her home, the Grove-street Bakery, 1793 Grove street, by a reporter, and was the first intimation she had received that her husband had died abroad.

Dudweiler was a native of the German, where he was born in 1852. On July 29 he left this country for a visit of a couple of months to his native place. He had not been feeling well and his doctor had advised him to take a trip into the country. Mr. Wunn, however, concluded to go abroad.

He reached his birthplace and enjoyed the reunion with old friends and wrote his wife to the effect that he was improving in health, though the doctor had advised him that he was afflicted with a severe case of asthma. The last heard from him alive was, indirectly, through a postal card written at Dudweiler at his suggestion by a friend of the family in which reference was made to his prospective return home. His arrival in this country was looked for the latter part of next week.

Mr. Wunn came to this country

Thought- Chinese Cook
Tried to Take
His Life.

A man refusing to give his name rushed into the Health Office today remarking that he would like to be pumped out. He said that his Chinese cook had poisoned him.

Secretary Dan Doody referred him to Health Officer Von Adeburg, who after an examination into the stranger's case said there

was nothing the matter with him. The man refused to give his name but said he had good reason to believe that his Chinese cook was trying to kill him.

PROF. STEPHENS

TO GIVE LECTURES

Professor H. Morse Stephens of the University of California will give a series of twelve lectures on the general theme of the French Revolution in Oakland at the Common School Assembly Hall beginning October 18. A preliminary lecture introductory to the course will be given tomorrow at 8.15 p. m. at the same place, admission to which will be free. A University Extension Center is being

organized, more than a hundred members already being assured. All interested in higher education, whether teachers or not are eligible to membership in the local center. Special lectures will be given at intervals of two weeks on the following topics:

"Louis XVI and Marie Antoinette, King and Queen of France," Milwaukee, the center of the Third State in the National Assembly," Lafayette, the commander-in-chief of the Nation

Guard of Paris." "Mathias, the State-
man, who tried to prevent excesses and
who labored for a stable government."
"Brisot, the politician who brought
about the foreign war." "Vergnaud, the

J. W. M'CLYMONDS RETURNS FROM THE EAST

Superintendent of Schools Gives an Account of His Profitable Trip.

Superintendent of Schools J. W. McClymonds returned from the East last evening. In speaking of his trip he said:

"I had a pleasant and I believe a profitable trip to the East. I visited Kansas City, St. Louis, Chicago, Pittsburg, New York, Boston, Buffalo, Cleveland, Detroit, Omaha and Denver. I found the school people very willing to render the Board of Education of the city of Oakland all the assistance in their power in the preparation of plans and specifications for school buildings. I have with me some, and will have in a few days from other cities more, plans and specifications and estimates of the latest buildings constructed in each of the aforesaid cities. These plans and specifications of course will show the very best there is in school architecture in use in the East.

HEALTH IN SCHOOLS.

"In all the cities named I found that special efforts are being made to perfect the school buildings in hygienic conditions, such as light, heat, ventilation and the construction of the sanitary conveniences.

"The blower system is in use in nearly every instance, furnishing the children from 30 to 35 cubic feet of air per minute for each pupil. These blowers are used in the winter for furnishing hot air and in the summer for furnishing cool air. Of course, our temperature does not demand the last mentioned use of these blowers.

"A few years ago there were two recognized methods of obtaining light to the class rooms. The one from the left of the pupils only, the other from the left and rear of the pupils. The former is recognized now almost universally as the preferred method. I

nearly every instance in all the modern school buildings I found the light to be admitted from the left side only.

MANUAL TRAINING.

"The people of the East are using their basements to better advantage than we of the West have been doing. This is brought about largely by the demands of manual training, the basement rooms being largely devoted to sloyd and other manual training purposes.

"Chicago shows largely the effect of recent legislation in that city for the construction of school buildings in reference to fire. One thing I noticed especially, and it seems to me to be absolutely right, is that the main entrances of the buildings are always on the ground floor, the steps leading to the second floor being inside of the building rather than exposed to the weather, as in most cases in the West.

"The size of the school rooms vary from 24x32 to 27x34, but the general and apparently approved size of the school rooms was 24x32, a smaller school room than we have been constructing in the Oakland School Department.

FIREPROOF SCHOOLS.

"School construction in general was fireproof. In all cases as much attention as possible was paid to the construction in reference to protection from fire.

"I found in the East some beautiful cities, but in nearly all instances the same complaint is made in reference to the streets of the cities as we have in Oakland. But there is this to say of the Oakland sidewalks: they are much cleaner and in much better condition than in any city in which I visited, viewed from a sanitary point of view."

LA FOLLETTE WINS IN WISCONSIN.

(Continued From Page 1.)

designation shall be given to the nominations of the one certified by the committee which had been officially certified to be authorized to represent the party."

THE CONVENTIONS.

6. The first clause provides for a case where only one of two or more conventions is claimed to have been held upon the call of the regular party committee and the identity of that one is, therefore, not in doubt. The second clause provides for a case where all of the conventions are claimed to have been held pursuant to the call of such and the same committee by creating a tribunal to decide for guidance for the Secretary of State which set of nominees is regular, and therefore entitled to use of the party name, such a tribunal possessing by familiar rules executive and final jurisdiction, save as hereafter stated.

7. The first clause of section 3, statutes of 1898, cannot apply to this case, because the dominant feature thereof is the existence of a multifarious "claim to the same party name," determinable as before indicated by the certifying officer from his own records, showing the necessary course of regularity.

8. While the dominant feature of the first clause is the existence of a multifarious "claim to the same party name" one of such claims only being based on the "call of the regularly constituted party authorities," the dominant feature of the second clause is the existence of a multifarious "claim to the same party name," based on a like claim of the regularity of the party convention each of the claimants referring necessarily to the "call of the regularly constituted party authorities," as in the case in hand.

THE CONTROVERSY.

9. The present controversy comes clearly within the second clause of said section 35, answering as it does every call thereof:

(a) "Two conventions were held."

(b) "Each of said conventions made nominations."

(c) "Such nominations were duly certified."

(d) "Each of said conventions claimed to be the regular convention of the Republican party."

10. It was competent for the Legislature in authorization of official ballot and in granting to the party nominees a right to have their names placed thereon under the party designation, to subject that right in case of controversy between two or more sets of nominees, each claiming the same and such designation, to the decision of the party tribunal as in said section 35.

11. The creation of a tribunal to determine such controversies, no provisions being made for judicial review of its decisions, necessarily makes its jurisdiction exclusive and its decisions unimpeachable, except for jurisdictional defects.

12. The tribunal answering to the call of said section 35 is found to exist in the Republican State Central Committee elected at the State convention of 1902, and duly certified to by the Secretary of State under section 31 of the statutes, therefore jurisdiction of the courts is limited to deciding whether such committee was or is without jurisdiction because of bias or interest of some of its members or whether its decision is affected by jurisdictional defects.

13. Such tribunal though required to act judicially, being an administrative rather than a judicial body, bias or interest of its members, does not disqualify them nor affect its jurisdiction.

REPUBLICAN CONVENTION.

14. The decision of the National Republican convention as to which of the two sets of delegates from this State claiming the right to represent the Republican party thereof in such convention, was entitled to recognition is not of any significance to the Secretary of State or to the committee authorized to determine the factional dispute. Under said section 35 since exclusive jurisdiction thereof as regards the official ballot law was conferred by the Legislature upon the latter as a special tribunal, as before indicated.

15. As soon as the nominations were made by the conventions and duly certified, rights of nominees to places upon official ballot under designation "Republican ticket" became vested in them as representatives of the respective organizations, subject to the decision of the special tribunal aforesaid, as to which of the conventions was regular and such right could therefore not be in any way affected by the determination of any other tribunal.

16. Section 35 of the statutes

contemplated in all cases mentioned, of conflicting claims as to the use on the official ballot of a party designation, that one set of the claimants shall be given preference thereto and each of the others have a place upon the ballot under a designation sufficiently definite from that accorded to the rightful claimant of the particular designation to enable the electors to distinguish such set of irregular from the regular nominations.

FACTIONAL DISPUTE.

17. The tribunal created by law to determine the factional dispute in question for the guidance of the Secretary of State having assumed jurisdiction thereof and decided free from jurisdictional infirmities, that the nominations headed by Robert M. La Follette for Governor, are entitled to preference in respect to the use upon the official ballot of the name "Republican ticket," it is the duty of the Secretary of State to act accordingly, certifying both sets of nominations to the various county clerks, but giving to those headed by Robert M. La Follette for Governor preference as aforesaid.

18. The foregoing conclusion follows logically this necessarily from the legal aspects of the case before stated that the real right in the matter in dispute might be found to be, were this court permitted to disregard the decision of the special tribunal and investigate and determine the merits of the controversy from that standpoint, it has no right to decide or suggest. Duly constituted authority having spoken within its jurisdiction, it must be conclusively presumed here to have spoken rightly.

By the Court.—Both the motion of plaintiff and that of the defendant are denied and the case is dismissed for want of sufficient facts appearing to constitute a cause of action.

At the Wisconsin State Convention held May 18 last, 1060 delegates were given seats. Of these 108 were contested. Of the uncontested delegates, 515-1-3 were for La Follette. The State Central Committee, being of La Follette sympathy, seated but forty-three contested "Stalwarts" delegates, giving La Follette a majority. The "Stalwarts" charged unfairness, bolted, nominated a separate ticket and went into the Supreme Court to compel the Secretary of State to put the Stalwart ticket in the regular Republican column on the official ballot.

KILLED BY THE TRIBESMEN.

TROOPS WERE SURPRISED WHILE CROSSING THE RIVER.

LISBON, October 5.—The Minister of Marine announced in the Chamber again that a detachment of Portuguese troops, belonging to a column operating in Portuguese West Africa against the Cuamhamas, was surprised by the tribesmen while crossing the Cuamham river.

The detachment, which numbered 490 officers and men, lost 254 killed, including fifteen officers and fifty men wounded.

THE FOREST.

Here in the languorous silence, where sunlight with shade interlaces,
Let my soul sleep;
And from the walls-songs of beauty,
Which time neither mars nor effaces,
Let me drink deep!

Far from the riotous throbbing of busy humanity bustling
Here is a calm;
Only a marvelous bird-song, or music of glad leaves low rustling,
Breaks the sweet calm.

Oh! to be friendly with the lilies, the low creeping vines, and the mosses,
There close to lie;
Gazing aloft at each pine-plume that quills the blue sky,
'Neath the blue sky.

Oh! to be near to the beauty, and infinite grandeur of all things
Simple and free;
Held by the magic that ages have wrought in the great, and the small things.
For you and me,

WIZARD OF OZ IS COMING.

LARGE COMPANY WILL BE SEEN AT THE MACDONOUGH.

MAY TAYLOR AS THE "LADY LUNATIC" IN THE WIZARD OF OZ.

"The Wizard of Oz," the blithe and merry extravaganza, which is one of the season's real hits will doubtless be welcomed next Monday, October 10th, by an audience that will crowd the house to overflowing. The production deserves it. After the resounding success of musical comedies it is neither a surprise nor a regret that a stage entertainment like "The Wizard of Oz" is a grateful relief. An up-to-date fairy tale, with such original characters as the "cucumber" and the "Tin Woodman," must needs appeal to young and old alike, and whatever they are upon the stage the fun is fast and furious. An unusually vigorous lot of girls contribute to no small degree to the success of the show, which from a spectacular viewpoint is well sold. Even the regulars here, seats are now on sale and the prices are from 25 cents to \$1.50.

SIDETRACKED.

A popular piece of action always does well in Oakland and "Sidetracked" at the Macdonough is proving no exception to its rule. It is a play which has been running for a long time in the city, and is a good one and done by a company of merit, something unusual in a popular piece of action. There are more laughs and stirring situations in "Sidetracked" than in any other play in the city. It is a play which has been running for a long time in the city, and is a good one and done by a company of merit, something unusual in a popular piece of action.

SOME GOOD RECIPES.

Chocolate Biscuits—Rub to a powder four cups of flour and one cup of well-washed butter. Mix with half a cup of oil or a little more of ice-water and knead well. Let stand for ten minutes, then roll out to a thickness of one eighth of an inch, cut into small squares, including next Sunday night with nutmegs next Saturday and Sunday. The pieces are to remain the same all week viz., 10c 20c and 30c.

Almond Biscuits—Beat two ounces of sweet almonds and if it contains of bitter almonds and pour to a paste. Add one cup of sugar and the beaten yolks of five eggs. Beat for five minutes, mix in the yolks of four eggs, spoonfuls of sifted flour and finally stir in the beaten whites of five eggs. Bake in small fancy shaped tins, using a tablespoonful of the batter for each biscuit.

Chocolate Biscuits—Put into a bowl three-quarters of a cup of sugar, the zest of a lemon, three ounces of grated chocolate and the yolks of six eggs; beat with a spoon for five minutes; add the stiffly beaten whites of six eggs and beat five minutes longer; now add two and a half cups of flour and stir for five minutes. "Until the ingredients are thoroughly incorporated."

Washington Cake—Take five cups of flour, three cups of sugar, half a cup of butter, three gills of milk, a quarter pound each of raisins, citron and currants, two eggs, one teaspoonful of yeast powder. Flavor to taste.

Sally Lunn—Four eggs, one teaspoonful of sugar, half a tablespoonful of butter, one cup of milk, four to make like sponge cake; later two teaspoonfuls of yeast powder. Bake in a moderate oven and serve warm, for high tea.

Strawberry Jam—To every pound of fruit allow three-quarters of a pound of sugar, also a pie of red currant juice to every four pounds of the berries. Boil the currant juice with the strawberries for half an hour, stirring all the time, then add the sugar and boil twenty minutes longer, skimming carefully. Put in small jars of tumblers with paper wet in brandy and cork or paraffine. The currant juice may be omitted.

Apple Souffle—This is pleasant and wholesome for the children's lunces. Stew the apples as if for sauce, adding a little lemon and a tablespoonful of sugar. Let the custard cool and then pour it into the dish with the apples. Eat the whites of the eggs and sugar over the top, sprinkling with sugar, and set it in the oven to brown.

FAIRBANKS HAS LEFT OUR STATE

Bids Farewell to California on Summit of the Mountains.

TRUCKEE, Cal., October 5.—At this point, on the summit of the Sierra Nevada mountains, at 7 o'clock this morning, Senator Fairbanks bade adieu to the State of California and to the people of the Pacific Coast States.

The stop was made before breakfast, but no formal speech was made.

This was due to a mistake in announcing the meeting for the evening instead of morning. There were, however, a number of men at the railroad station when the train pulled in and these the Senator greeted with a hearty handshake.

In a few informal words he expressed his appreciation of the hospitality that had been everywhere on the trip extended to him. Other stops for the day are Carson City, Nevada, and Reno, at night.

ANCIENT CLOCKS.

Probably the oldest method of determining the time of day was by the sundial, but other devices have been used for centuries including the water clock, burning wax and the hour-glass filled with sand. Popular legend attributes to some cities the invention of the water clock, but long before its time it was in use by the Egyptians. And in Judea, Babylon, Chaldea and Persia there was a contrivance for measuring time by means of water, which appears to have consisted of a basin filled with water and exposed in some place of a public square. At the extreme end of the vessel was a spout or lip from which trickled the liquid drop by drop into a receiver hanging on its inside marks for indicating the hours of the day and night.

In the East, India there was used a thin copper bowl about five inches in diameter and rather deeper than half an inch, having a very small hole at the bottom. The bowl was in a vessel containing water and floating thereon constantly filled. At the expiration of an hour the water in the bowl would rise to a certain level and a gong and thus announced the time. It showed the accuracy of the time, but the time varied with the temperature of the water. It was possible to find the latitude of a place by observing the position of the pendulum, which worked on a peg wheel to indicate the hours.

Ptolemy introduced the clepsydra into Greece. It was used by the Romans also. The King of Persia is said to have presented Chastanaga with a water clock of bronze, inlaid with gold. Water clocks were used up to the seventeenth century. Even with the introduction of the pendulum, water served as the motor and the pendulum as a regulator.

BRIEF YARNS.

A young man who was trying for the sheepskin in Missouri and who had made a good thing of it, was asked by a friend, "Vest, one of his examinations. If he would like to be questioned further, 'I regret to say,' remarked Mr. Vest, 'that you have failed to come up to the mark in the branches of law upon which we have examined you. But he added, in a most kindly spirit, 'we will question you further if you so desire.' 'Well, sir,' responded the applicant, 'I would suggest, if you please, that I be questioned on the statutes.' 'At this Mr. Vest smiled and said, 'My dear young man,' added he, 'I do not doubt that you are up on the statutes, but I do doubt that you will succeed in the law. Suppose you should have the utmost familiarity with the statutes, while to prevent the Legislature from repealing all you know.' A humor had done the rounds stating that Dr. David C. Gilman, the president of the Carnegie Institution at Washington, was about to resign his office. Many different reasons for the resignation were given, among them being that he was breaking down from old age. At last, to get at the truth of it all, a reporter called upon him for a little first-hand information. "Resign?" was Dr. Gilman's answer. "Certainly not. And after an instant's pause he added, 'Joseph L. Comte, my old colleague at the University of California, has asked me to question him, and I have put me on my eighteenth birthday. This really will do for me. He said, 'Why should I resign? I have just begun my life's work.' One evening recently a certain young woman received a check from a magazine publisher for a good deal larger than he had anticipated. The occurrence seemed worthy of a celebration, so in company with a young artist he sought a restaurant for the occasion. With a luxurious shawl and with indifference to the cares of the world he ordered an elaborate repast. His companion, being of the sex especially thrifty when dealing with household matters, begged him to divide the cost of the dinner. "Bring me my check," said the host, "bring me my check, and water-bring it very gradually."

REPUBLICAN LEAGUE MEETS IN THE EAST

Letter From Roosevelt Received With Three Cheers and a Tiger.

INDIANAPOLIS, Indiana, Oct. 5.—The biennial convention of the National Republican League of the United States opened here today with thirty-five States and Territories represented by delegations. According to its president, J. Hampton Moore of Philadelphia, the league represents nearly two million members organized into 7,000 Republican clubs.

Charles W. McGuire, president of the Indiana Lincoln League, called the Convention to order and introduced President J. Hampton Moore, who presided.

Governor Winfield T. Durbin of Indiana, formally welcomed the delegates to the State.

The response was made on behalf of the Convention by J. B. Redding of Arkansas, national treasurer.

The call was read by E. W. Weeks of Iowa, secretary of the National League and the biennial address of President Moore was delivered.

President Moore said: "Since the Chicago Convention we have waited in vain for the Democrats to show cause why Republicans should change their faith. The whole country listened with its ear to the ground for the sake of Esopus to speak, but heard only the echoes of Republican achievement."

"Grover Cleveland, author of 'Hail Roosevelt for Millions of Failures,' tells you Roosevelt is unsafe. John Sharp Williams, with a mighty constituency of five thousand Mississippi voters tells you so. Champ Clark would cut your throat from ear to ear if you deserted him and General Tom Taggart, who is getting along so happily with Sheehan in New York, would give his national chairmanship to prove it in the State of Indiana."

"We come here as representatives of Republicans in all the States and Territories of this union. We were less than a million at Chicago two years ago, but the work of organization amongst the younger men of the country has been going forward so steadily under the banner of Roosevelt

and Fairbanks that today we proudly boast of a membership of more than one million and a half."

"Thirty days remain for campaign work; thirty days in which the young American may labor for that finest type of young America now in control of the destinies of this Nation and that splendid statement of long experience which is associated with him upon the Presidential ticket, thirty days in which to co-operate with the regular agencies that direct Republican influence; thirty days in which to labor, aye if you please, to hustle as league men can and will for Republican supremacy."

President Moore made a feeling reference to the death of Senator Hoar and Postmaster-General Payne. At the close of his address he called attention to the fact that the National League was out of debt and had a small balance in the treasury.

General James S. Clarkson of Iowa and D. B. Woodmansee of Ohio then addressed the convention.

Secretary Weeks read the following letter from President Roosevelt which was received with three cheers and a tiger, the delegates standing.

"White House, Washington, September 27, 1904. My Dear Mr. Moore:—Permit me, through you, to extend my warmest greetings to the convention of the National Republican League. I appreciate to the fullest the work it is doing. The zealous disinterested aid of the men who composed it means more for the party than almost any other kind of support, and I count our party fortunate in having able men to work for it in the spirit that your organization has shown. We hold that our party is worthy of support, because it has served the nation with fidelity and efficiency so long and especially because it is now thus serving it. Hoping you will have a most successful meeting, I am, Sincerely yours

"THEODORE ROOSEVELT.

Congratulations were also read from National Chairman Cortis and Senator Charles W. Fairbanks.

EPISCOPAL MINISTERS AT GREAT CONVENTION

Matters of Importance to American Church Will be Discussed by Delegates.

BOSTON, October 5.—Prelates from five continents and fifteen distant islands of the sea, representatives of the Anglican community throughout the world, participated in the opening ceremonies of the triennial general convention of the Episcopal Church of the United States in this city today.

For the first time in ecclesiastical history the Archbishop of Canterbury, primate of all England and metropolitans, was present at a formal assembly of the American Episcopal body.

He was received with all the honor due his rank, and as the guest of the American church, was accorded a hearty welcome by four score bishops of domestic dioceses. The convention is regarded as the most important ever held by the Episcopal denomination.

The proposed legislation embraces questions of moral reform, alterations in the ecclesiastical administration, and even a change in the name of the church itself.

The House of Bishop and the House of Deputies, the executive bodies, will devote three weeks to its business, and several topics, such as the movement to

prevent the remarriage by the clergy of a divorced person, while the former partner is living, and the demand from certain quarters to omit the word "Protestant" from the church's legal title. "The Protestant Episcopal Church in the United States," a protracted discussion is anticipated.

A proposal to group the dioceses into provinces, with a senior bishop or primate at the head of each proposed district, and a plan to have a final court of review established for the purpose of being appeals from diocesan courts will also be warmly debated. Missions at home and abroad will form another live subject for consideration, both by the convention itself and by several specially arranged missionary mass meetings, at some of which the Archbishop will speak.

The features of today were the presence of the English primate, a procession of dignitaries, which formed the most imposing spectacle ever seen in the Episcopal Church in this country, and a sermon delivered at the opening service in Trinity Church by the Right Rev. William Crosswell Doane, D. D., LL. D., Bishop of Albany, New York.

GROWING UP OF TEXAS.

Lone-Star State May Have More People Than New York in 1950.

It is southwestward that the star of empire takes its flight, for Texas is the most rapidly growing State in population, and there are now only four States that contain more people—New York, Pennsylvania, Illinois and Ohio. In area Texas is nearly a third larger than all four of them.

At the present rates of increase of population Texas will pass Ohio before 1920, Illinois before 1930, Pennsylvania by 1940 and New York by 1950, and become the most populous State in the Union. If it were as densely settled as New York now is it would contain 41,000,000 souls, and when it becomes as densely populated as England or Germany it will contain 95,000,000. By the act of Congress admitting it into the Union the State may be divided into as many as five States, but division has never been seriously proposed.

Since 1880 Illinois has had more miles of railroad than any other State till this year, but on September 1 Texas exceeded it, having now 11,617 miles.

The exports from Galveston are now greater than the exports from Philadelphia, Baltimore or Boston. Only New York and New Orleans make larger outward shipments, and Galveston will exceed New Orleans in a very short time.

and become the second exporting city in America.

TEXAS produces about one-third of our whole cotton crop. More wheat is now shipped there than from both New York and New Orleans. Galveston is nearer the trans-Mississippi wheat fields than any Atlantic port, and the Panama Canal will bring it very much nearer than it now is to the Pacific coast. From the October World's Work.

To Polish a Table—To polish the dingy table, take a quarter of a pound of beeswax (the unbleached will do) and have ready a piece of carpet a quarter of a yard square, lined with a piece of cloth and padded. Hold the wax before a fire, and as it melts coat the cloth well with it, and while yet warm begin to rub the table briskly. Rub for quarter of an hour.

HARRIMAN
WILL NOT
ANSWERS. P. President Will Not
Tell of a Stock
Deal.

NEW YORK, October 5.—E. H. Harriman and Jacob H. Schiff appeared as witnesses before a referee today in the suit of J. J. O'Leary of Chicago against a New York broker for \$25,000 losses in dealings in Northern Pacific in May, 1901.

Mr. Harriman said he could not remember how much Northern Pacific stock he had about May 9, 1901. He refused to reply to questions as to whether or not he was concerned in any way in trying to gain control of the Northern Pacific road.

"Why won't you answer these questions?" he was asked.

"I don't want to," replied Mr. Harriman.

Mr. Harriman said he was present at the conference with Mr. Steele, Mr. Schiff and others on May 31st, when it was decided to allow Mr. Morgan to name a new board of directors for the Northern Pacific road. He said this conference was held for the purpose of allaying the apprehension concerning the affairs of the road.

Mr. Harriman refused to answer questions as to whether or not he sold Northern Pacific stock to the Northern Securities Company.

He said that at the present he was a director in the Northern Pacific road, but he did not remember whether he was one of the directors named by Mr. Morgan in May, 1901.

Mr. Schiff said that prior to May 9th, the firm of Kuhn, Loeb and Company had purchased Northern Pacific stock on the New York Stock Exchange, but he declined to say how much was purchased. He declined to state whether Kuhn, Loeb and Company had sold Northern Pacific stock to the Northern Securities Company at the time of the formation of the latter company. His firm he said, would have been willing to pay more than \$150 a share for Northern Pacific stock on May 9 had there been any for sale.

OIL TANK
BURNING
FIERCELYWas Struck by Light-
ning on the
Desert.

FRESNO, October 5.—A message to the Jamez "Democrat" states that one of the large receiving oil tanks at the pumping station at Mendota, fourteen miles away on the west side prairie, was struck by lightning at midnight and is burning fiercely.

There are five large tanks there receiving piped oil from Coalinga, Bakerville, Oil City and Sunset for collection before shipment by rail.

By heroic work of the pumping station the fire was confined to the lightning-struck tank and this afternoon it is stated that the greatest danger is over.

A force is employed digging trenches to run the burning oil out upon the prairie after the oil tank has been punctured, to do which a cannon has been sent for at Los Banos. It is expected to release the oil by night.

WYMAN DENIED A
WRIT.

SAN FRANCISCO, October 5.—In the Superior Court today Judge Sloss denied the application of Charles Wyman, accused of fraudulent voting, for a writ of habeas corpus.

The judge held, in effect, that the present primary law is constitutional, made so by amendment to the State constitution, which amendment was submitted to the people and adopted at the election four years ago.

Police Judge Cabanis has raised Wyman's bail from \$2,000 bonds or \$1000 cash to \$1000 bonds or \$2500 cash.

Given Heavy
Sentence.

SAN FRANCISCO, October 5.—Jack Black, alias Tom Callahan, will not appear in public for the next twenty-five years to the disgust and apprehension of the police, unless he should escape from the confines of the penitentiary at Folsom. Judge Dunne of the Superior Court this morning sentenced Black for that period of time, and it is considered that before the sentence expires the desperate footpad will have died. Should he live longer he will find himself against him on the reserve calendar two charges of assault to murder and one of burglary.

Black was responsible for a veritable reign of terror in the Mission district last March, and his capture was cleverly effected on Eddy street, near Mason, by Detective Stephen Bunner, assisted by a policeman. Regardless of the crowd on the street, Black pulled a revolver and attempted to shoot Bunner, but was overpowered before he could do so. He is a man who will take any chance in order to escape paying the penalty for his unlawful acts.

APPRAISEMENT OF
THE HAY ESTATE

According to the report of appraisers in the estate of Alexander Hay, a member of the ship-building firm of Wright & Hay, who died a few months ago, the value of the estate is \$20,645.70. The appraisers, who are B. H. Madison, J. B. Lanktree, F. D. Williams filed their report with the County Clerk today.

The estate consists of 483 shares of the capital stock of Hay & Wright, no value; 780 shares of the Pacific Marine Railway & Wharf Company, \$2,452; mining stock of no value; an interest in ten schooners, valued at \$1,091; promissory notes for about \$10,000 rated as of no value. Life insurance policy, \$1,883.26; jewelry and cash about \$200; household furniture in the dwelling at 1630 Railroad avenue, Alameda, valued at about \$300; real estate in Alameda, valued at \$3,600.

KINGSTON, Island of St. Vincent, October 5.—A peculiar phenomenon, a dust cloud, overshadowed the island October 2 for a whole day.

It was accompanied by intense heat, giving the impression that the Soufriere volcano on this island was erupting. No detonations were heard.

An investigation has since been made by a party, which ascended the mountain yesterday.

They report that there are no indications of an eruption.

It is supposed to be from Mount Pelee, which is 10,000 feet high, and destroyed the town of St. Pierre with the loss of 30,000 to 40,000 lives in May, 1902.

The word "war" was changed to "conflict" and the cablegram was adopted.

It was voted to send cablegrams to Frederick Passy of Paris, Honorary President of the Congress, and to the Russian and Japanese governments, asking them to stop fighting.

CONTEST OVER
ROOMS.

Manager Lubelski of the Novelty Theater today filed suit against Shaw & Shaw, portrait photographers, who occupy Rooms 9 and 10 of the building adjoining the Novelty Theater on Broadway, to gain possession of the rooms mentioned and to have the defendants' lease declared forfeited.

Shaw & Shaw filed a counter suit, stating in their complaint that the Novelty Theater Company is tearing down the stairs leading to their rooms to their irreparable injury and ask that the theater company be enjoined from proceeding with this work.

Mr. Lubelski's complaint alleges that Shaw & Shaw have failed to pay the rent of the premises in question, amounting to \$150 a month, and for that reason their lease is forfeited.

The defendants say the rent should be but \$40 per month, and contest the right of Lubelski to charge them \$150 or to disturb them.

JAPANESE
BADLY
DEFEATEDRussians Hammered Them
Hard at Port
Arthur.

ST. PETERSBURG, October 5 (6:20 p. m.)—Emperor Nicholas has at last received General Stoessel's official report of the desperate four days' assault of the besiegers on Port Arthur from September 13 to September 23 from which it appears that the unofficial report from the Japanese was by no means exaggerated. The Japanese displayed frenzied bravery, but they lost 10,000 men, and their only success was the capture of two redoubts guarding the water works. They prepared for the assault by a general bombardment and then launched their attacks simultaneously from the north and west. Night and day they fought under a cover of a continual bombardment from their siege guns and finally reached the redoubts on the north side, but only after the defenses there were completely demolished by shell fire from the west.

The Japanese efforts were directed chiefly against the commanding position on High Mountain, which faces Pigeon Bay, slightly south of Port Etse. The mountain is 600 feet high, and if it had fallen its possession would have given the Japanese a tremendous lever against the chain of inner defenses. The carnage there was terrible and continued September 22, when the Japanese succeeded in reaching and occupying the Russian armored shelter trenches, whence they expected to storm the summit.

During the night Lieutenant Pogorsky of the navy, at the head of a detachment of volunteers, descended upon the trenches and blew them up with pyroxylin bombs, producing a panic among the besiegers, who fled, leaving the mountain side strewn with dead. The Japanese then abandoned further attempts, but after a day or two to recuperate, according to General Stoessel's second dispatch, dated September 30, they resumed the bombardment of the city and outer works and began to construct zig zag approaches, evidently getting nearer from which to launch their next assault.

The loss of the water works is not considered vital, as there is a fresh water lake and numerous wells, as well as a condensing apparatus within the defenses.

General Stoessel recommends General Kondratenko, Lieutenant Pogorsky, Colonel Irman and the artillery and Captain Sychart of the Fifth Siberian Regiment for the St. George's Cross.

The complete character of the repulse of the Japanese has evidently greatly inspired the garrison of Port Arthur. General Stoessel says the gallantry of the Russian troops was beyond praise, and adds that the garrison will hold out to the last drop of blood.

Representative Van Duser of Nevada talked with Judge Parker concerning the campaign in his State and told the Judge he would start at once for Nevada, where he will make speeches daily until election day. Other members of Congress who called today were Representative Oliver Burgess, Cooper and Burleson of Texas.

FRANCHISE IS IN
THE AIR.

SAN FRANCISCO, October 5.—In reference to the published statement that the Western Pacific Railway had issued orders that grading was to be commenced next month in Nevada and in this State, Chief Engineer Dillman said:

"There is no reason why grading should not commence next month except for the lack of a satisfactory franchise at Stockton."

"The Marysville franchise has been granted, which is satisfactory, and grading can commence there at any time. In all probability the main line will not reach Reno."

Mr. Dillman did not say what route the Western Pacific would eventually follow except that the road would be built from San Francisco to Salt Lake and that the towns of Stockton, Sacramento and Marysville would be passed.

"Yes," he continued, "the Beckwith Pass has been spoken of, but there has been no decision reached as to the line we shall follow. The statement that we are negotiating for the purchase of the line to Salt Lake from Salt Lake may or may not be true. It carries a street franchise and has no terminal facilities."

Mr. Dillman is enthusiastic over the advantages that will accrue to the coast generally when this line shall have been built. He says that next to the building of the Central Pacific this is the most important piece of railroading in the State and that it will be one of the most important in the country as with more roads a great incentive will be given to the business of smelting.

FUNERAL OF THE
LATE CHARLES SHEAR

The funeral of Charles Shear, who died last Sunday, was held this afternoon from his late residence, 1050 First avenue, East Oakland.

Rev. Raymond C. Brooks, of the Pulgrim Congregational Church officiated at the services.

Many flowers were sent by friends, some of the floral offerings being of exceptional beauty.

The following were the pall bearers: Joseph Ghirardelli, Paul Goldsmith, Asa V. Mendenhall, Fred Poock, James F. Glover and C. H. Bark.

After the services at the house, the remains were incinerated at the Oakland Crematory.

GOES TO THE JURY.

The damage suit of William Springer against the Southern Pacific Company went to the jury this afternoon, without argument. The jury was taken to the scene of the collision, at First and Grove streets, where Springer alleges that his young son was so seriously injured that he is entitled to damages in the sum of \$25,000.

RUSHING ROAD ON
ADAMS POINTWHY THIRD STEAMER OF KEY
ROUTE TARRIES ON DICK-
IE'S WAYS.

The extension of the line of the Oakland Traction Company, formerly the Oakland Transit Consolidated, across what is known as the Adams property at the head of Lake Merritt, is being pushed with great rapidity and it is expected the road will be completed in about two weeks.

The line extends from the intersection of Fourteenth street and Broadway to Webster street, thence along Grand street through Boulevard Terrace, across a filled in section and thence along the new thoroughfare which has just been completed by the Adams heirs.

This new thoroughfare in proportions and the view of rolling country which it commands, is the most imposing to be found around Oakland.

The tracks for the cars of the Traction Company are being laid in the middle of the broad avenue, leaving between forty and fifty feet on either side for the accommodation of vehicles of all kinds.

As soon as it is completed and ballasted, the line will be put in operation, between Forty and Fifty streets, being Broadway and Fourteenth street, the eastern and northern terminal being at the head of the most northerly arm of Lake Merritt.

Passengers will be transferred at the former terminal for all points.

The new ferry steamer of the Key Route is still on the ways in Dickie's shipyard on the south side of the harbor. Its launching has been delayed by the failure to arrive of the screw and crank which, under contract, were to have been delivered here some weeks ago. Had they been received in time, the steamer would have been launched on the 20th of last month. It is expected that the boat will not go into commission until about January 1 of next year.

SENATOR JONES
CALLS ON PARKER

NEW YORK, Oct. 3.—Ex-Senator James K. Jones of Arkansas, saw Parker today and after the conference announced that he will give his undivided time to Judge Parker in any way he can be of service. Mr. Jones ridiculed stories started a week ago that he had withdrawn his support from the national ticket. He said Nevada and Montana are Democratic States and he is favorable to Colorado, Idaho, Wyoming and Washington.

He said he was not hopeful of carrying Washington for the national ticket, but that he believed Former Senator Turner, the Democratic candidate for Governor, will be elected.

Representative Van Duser of Nevada talked with Judge Parker concerning the campaign in his State and told the Judge he would start at once for Nevada, where he will make speeches daily until election day. Other members of Congress who called today were Representative Oliver Burgess, Cooper and Burleson of Texas.

NEW SCHEDULE

JOLIET, Ill., October 5.—A new schedule of wages and readjustment of working hours was put in force at the Joliet plant of the United States Steel Company today. The scale has been accepted by the workmen. The reduction in wages amounts to from 20 to 25 per cent, but the hours of work in the departments working time has been increased from an eight hour day to a twelve hour day.

Suffers a Broken
Back.

Encased in a plaster cast, Frank Smith, a switchman in the employ of the Southern Pacific Company living in West Oakland lies at the Southern Pacific Hospital in San Francisco with his back broken. It is feared he has received internal injuries.

While engaged in his duties as a switchman at the Peralta street slip, West Oakland, last night Smith was standing on a moving locomotive when he lost his balance and was pitched to the ground. Before the locomotive could be brought to a stop, Smith had been struck by the guard rail.

An examination of the injured man was made at the West Oakland Receiving Hospital and it was found that he had sustained a fracture of the spine and probably internal injuries. He was immediately taken to the Southern Pacific Hospital in San Francisco where his form was packed in plaster of paris.

Should it be found that Smith is not internally injured, the surgeons will perform a very delicate operation in hope of saving his life. Operations have been performed upon persons sustaining a fracture of the spine and the patient has recovered, so the surgeons are watching the case with unusual interest.

Political Effect of Lynching.

Negro lynching and burning are having their natural effect in politics. The New York correspondent of the Atlantic Constitution sends a long dispatch to his paper under date of September 20, warning the Democrats of the South that they must let the negroes alone till after election. Says the correspondent:

"The Democratic managers feel very much as if they might just as well fold up their tents and close headquarters, so far as this campaign is concerned, if there is to be a continuation of these lynching stories from the Southern States. It is inconceivable to them that the Southern people do not realize the immense damage such affairs do to the Democratic cause. Here are the Democratic managers seeking to impress the country that the Democratic party is a great law and order, a great constitutional party, and pointing to the Southern States to illustrate their contention that the masses of democracy in that section of the country, which is their stronghold, are conservative; and yet almost every day they have to face some such illustration of lawlessness and mob violence at the South as that furnished by Statesboro and Cedartown and Royston, and other points in the South."

Negro lynching is given a peculiar political significance by the venomous attacks made on the President for his efforts to protect colored citizens in the exercise of their Constitutional rights. By injecting the race issue into the campaign, the Southern Democrats have made negro disfranchisement and negro lynching vital questions in the North. They have called for a show of hands that can have only one result. They ask to be let alone to settle the race question in their own way. Do they propose to settle it with the stake and the lyncher's noose?

The superiority of THE TRIBUNE'S news service was again strikingly demonstrated yesterday. The most important piece of American news was the death of Postmaster General Payne, which occurred late in the afternoon. THE TRIBUNE published a full account of the last moments of the deceased statesman while other papers printed under the head "Late News" dispatches clipped from earlier editions of journals taking the Associated Press dispatches. We were enabled to give the very latest news by reason of having a special leased wire which transmits directly into THE TRIBUNE office all the intelligence gathered by the Associated Press up to the very moment of going to press. No other paper in Alameda County enjoys such an advantage.

The Two Paramount Issues

There are two paramount issues in this campaign:

1.—The record of the Republican party.
2.—The record of the Democratic party.
All other questions are bound up in these two propositions which are as radically opposed as work is to idleness, plenty to famine, prosperity to bankruptcy, order to confusion, and progress to reaction. If the people will only compare the two records, there can be no question of the result.

Hops are taking some high jumps on the market these days. One lot has been sold at 29 cents a pound in San Francisco. During the last Democratic Administration nearly all the hopgrowers in California "went broke."

An American vice-consul was fined ten shillings in Dublin for speeding his automobile faster than the law allows, but the eagle's feathers remain unruffled. Now if a British vice-consul had been fined for a like offense in the United States the entire diplomatic world would be shivering in its shoes.

The Democratic press is now charging that Duncan McKinlay was once an advocate of the free coinage of silver. In the language of Senator Taylor, "Oh, consistency, where is thy jewelry!" We should think the Democrats would be glad to let silver rest.

Unforeseen Cabinet Changes.

The death of Postmaster General Payne is a fresh example of the frequent and unexpected disarrangement of Cabinet plans. General Payne desired to resign some time ago, but was prevailed on by the President to remain in the Cabinet till next December. The death of Senator Quay took Attorney General Knox out of the Cabinet, and Secretary Root retired from the War Department because he could not be induced to keep the war portfolio any longer. John D. Long left the Navy Department because of the incompatibility of his and the President's views. Mr. Moody succeeded him only to be subsequently transferred to the Department of Justice, giving place to Paul Morton. Political propriety called for the retirement of Mr. Cortelyou on his election to the chairmanship of the National Committee. Thus the procession of incident has largely disrupted a Cabinet which the President intended to keep intact till the close of this administration. Secretaries Hay, Wilson and Hitchcock are the only remaining members of the original McKinley Cabinet, and of these it is only certain that Colonel Fay will remain after the 4th of next March. His tenure at the head of the State Department promises to be the longest in the history of the Republic as well as one of the most distinguished for notable achievement.

Jones—Jones of Arkansas—says Parker will win. The prophecies of Jones, like dreams, go by contraries. Jones was chairman of the Democratic National Committee in both of Bryan's campaigns. Both times he assured the country that Bryan was certain of election. His predictions are all right if played with a copper.

A recent incident in Chicago aptly illustrates the loose notion of marriage that is gaining ground in this country. On the eve of his wedding a young man was called up by telephone by a man who said he was the husband of the intended bride. When questioned, the latter naively exclaimed, "Oh, yes; I remember him. I met him up at Coldwater two years ago. We knew each other only two days when we got married. We lived together only one day." The young woman regarded the whole episode as in the nature of a joke and seemed surprised that it should be a bar to her marrying another man. Now the divorce court will be asked to untie the previous knot. The incident seems to entirely meet George Meredith's idea of term marriage. It could scarcely be made for a shorter period than a day.

Apparently the Democrats are ready now to call it square if they can elect Governors in New York, Wisconsin and Michigan. In the latter States they are openly trading off the Presidential ticket for their gubernatorial nominees.

Democratic Confession of Defeat.

Colonel J. H. Estill, editor of the Savannah News knocks the Democratic rainbow out of the western sky with a few plain, blunt statements of fact. Colonel Estill is a veteran Democratic politician and speaks in a tone of disappointment and regret. He has been traveling in the Middle West and on the Pacific Coast, and finds the Roosevelt sentiment overwhelming wherever he has gone. He says the Democrats have no chance out here, and warns his party in the East not to look for any successes in this direction. That Colonel Estill is right as to California the merest tyro in politics knows. One can see unmistakable evidences of it on every hand—in the increased registration, in Republican activity and enthusiasm and Democratic apathy and depression, in the relative size of meetings, in the talk on the streets and in hotels and in business circles. Roosevelt is a man after the West's own heart. He is one of us in spirit and aspiration. He is big, brave, independent, unconventional and broad-minded—a man typical of the mountains and prairies, whose spirit he caught in youth when the West was in its wilder and ruder stage of development. But going back to the Savannah editor's doubtful confession, where are the States Parker is going to carry? His fight is desolate in Connecticut, Indiana and New Jersey. It has been abandoned in Illinois and Wisconsin, and in New York it is slowly settling under the sense of impending defeat. The campaign is coming to an end ere it has fairly begun.

Japanese Patriotism.

The following are reproduced as they were printed in a Japanese newspaper:

Midshipman Shibuya saw his mother before his departure to the front when the following conversation passed between them:

"Mother, I shall not come back alive this time."
"Why should you not?"
"Mother, how can I live when I ought to die?"

Kikuchi was one of the sailors who went to block up Port Arthur. Just before his departure, he wrote to his wife these few lines:

"There is no doubt but that you are my wife and will behave accordingly."

These few words show the spartan spirit of the Japanese, to suffer in silence and be strong.

At the battle of the Yalu, Soldier Suzuki was shot through the stomach and fell down. But he cried out: "Yes! it is only a scratch." He bandaged his wound and told his friends to march on. The wound proved fatal and he died three days later.

Soldier K. Suzuki in one of his letters to his home mentions a most popular song sung by the soldiers at the front, which runs as follows:

"When I go to the front, bring up this child as a good citizen. When I die, do not weep."
She—"Why should I weep, am I not a soldier's wife? Fight for our emperor; the honor will abide with this child."

Hints for the Ladies.

Perhaps the best of all morning appetizers in the way of fruit is the grapefruit.

Never go from a warm atmosphere into a cooler one without keeping the mouth closed, so that the air may be warmed in its passage through the nose before it reaches the lungs.

An economical and satisfactory cream for the hands is composed of equal portions of honey, mutton tallow (clarified) and lemon juice, melted together until of the consistency of cream.

Sleep should not be grudged. A hard worker needs eight hours. If the night sleep is not broken it is well to rise at the hour of waking—assuming always that one feels fresh. A second and invited sleep does little if any good.

Tender feet should be bathed nightly in a strong solution of rock salt. They should be dried and powdered with boracic acid. The socks or stockings ought to be dipped in a hot saturated solution of this acid and be dried without wringing.

It is said one can lighten the hair by taking equal parts of rhubarb stalks and honey and steeping in three parts of white wine. Let it stand for twenty-four hours, strain and use as a lotion, wetting the entire hair, massaging and leaving to dry in.

Do not try to sweep an invalid's room, but bring a clean cloth out of cold water to which a few drops of ammonia has been added, and carefully wipe the carpet, matting or floor, tucking and rinsing the cloth and changing the water as it gets dirty.

A mouth that sometimes appears blue and livid around the lips belongs to a person with weak heart. Especially is this sign marked when the muscles around the lips appear to be tightened so that the mouth looks as if it were gathered in hard creases and fast closed.

A cupful of ordinary rock salt is an invaluable addition to the bath. It is especially soothing to a person with jagged nerves and will often induce a restful sleep to an invalid or a little child. The salt should be dissolved and thoroughly mixed with the water, which in a measure takes the place of sea bathing.

The delicious flesh of a melon is a specific against feverish symptoms. There are salts in the fruit that cool the blood. This was known in the ancient days of Egypt to the wise people of that land, who the melon grew abundantly. Its juices were drawn off and used as a drink, with the result that the sick recovered.

Perspiring hands are a source of great annoyance. Tincture of belladonna applied to the palms will lessen the perspiration. This is poisonous, so it cannot be freely used. Eau de cologne with 5 per cent of dilute acetic acid is quite harmless. A convenient way of using this liquid is to carry a wide-necked bottle containing a small sponge which has been soaked with the preparation.

Here is a remedy from good authority for removing that ugly dark stain that disfigures the neck of the woman who has been wearing high collars. Take fresh strained cucumber juice, boil it for five minutes, and for every five ounces of juice add: Pulverized borax, 175 grains; acetate of soda, 80 grains; tincture of quinine, 2½ ounces; tincture of benzoin, 4 drams; rosewater, 1 pint. Mix thoroughly and apply two or three times a day until the stain is removed.

The director's bath is the very latest thing. It is a bath made of sweet-scented water in which there is enough acid to be dangerous. It is a bath of a previous generation and it is one which every athlete of the present day should try. To make a director's bath take a tub of hot water and pour into it a quart of bath vinegar if one can afford it. If one cannot indulge in this extravagance, then take a pint. If this is too much, at least pour in a few tablespoonsful. A bath in bath vinegar is good for the muscles. It drives away rheumatism, it cures neuralgia, it is just the thing for a stiff neck and it takes the ache out of tired bones.

LEM SLOCUM'S VOTE.

The hall it cost us twenty plunks,
The band it cost us four;
Red fire cost us seven—but
The rain began to pour
Just when we made our leading bluff
And got right down to biz
To paint the corners with the stuz—
It went out with a sizz
The big spellbinder fifty got
To look the folks with talk;
He soothed them good, he soaked them
And left them white as chalk;
He hit them left, he hit them right
And earned his spuds, you bet!
And then he wandered in the right
An early train to get.

My umbrella he took along—
He's not returned it. Say,
I hope to goodness he'll get lost!
Where'er his footsteps stray!
It cost the Corners lots of dust—
Umbrella, too, I note;
But that spellbinder—on we trust
Has changed Lem Slocum's vote.

THE AMERICAN WOMAN SCOLDING BY A BRITON.

Her Vanity, Her Voluptuousness, Her Revolt Against Duty (as Alleged).

In her outlook on pleasure, as in her face toward the more serious elements of life, the American woman still betrays that weakness of her nature. She has perfected the cult of pleasure as no living being in all the history of the world. A certain common bond unites the drab woman on her farm and the belle of Fifth avenue. The one has little part or lot in the distractions of life, the other is swallowed up by them, but in the bosom of each, as Stevenson has finely said, in another connection, the same hands pluck and pull their. The one in her vanities, the other in her duties, both move to the nervous strings of the world's spirit.

It has been objected that criticism which is aimed at the voluptuary woman of America can only be fairly directed against a single class, and that a small class. This is a mistake for it is the spirit abroad among American women which the critic calls in question, and that spirit is visible in all classes of well civilized women, whether in the daughter of the millionaire or in the factory hand. It is the spirit of independence which finds its logic in the cold selfishness. The factory girls refuse to be married and take up the burdens of maternity; they put their savings in the bank and have a good time. The careful researches of Mrs. and Miss Van Vorst have demonstrated this fact beyond question.

That rupture with the ancient and traditional sphere of woman is to be observed in all American classes. Woman has arisen, insurgent, and denies her proper sphere. Her constitutional restlessness has driven her to abdicate those functions which alone exalt, or explain, her existence.

In this year of grace 1904, at a woman's congress in Berlin, the world has been informed by an American woman that "the female element is the central and older element, the male the later and younger," and that "with the beginning of the woman's movement an era will be inaugurated which will bring about the end of male rule." It is satisfactory to learn also that Mrs. Perkins, the lady in question, stated that it was

not the intention of women, when they came to their own to act toward the male sex as do the bees toward their unhappy drones.

These are but extravagances symptomatic of the general disease. The nervous equilibrium is gone and woman is fallen from her throne. It may seem odd to make such a statement when the American woman is enthroned at the moment higher than her more dependent sisters of Occidental Europe. But the world is divided into three parts—East, the West and America, and the world of the last is more difficult than that of the other two. Enthronization is the reward of that race of women who fulfill the requirements of nature. Do American women?—H. B. Marriott Watson in Nineteenth Century.

WANT WIESE TO RESIGN.

ALAMEDA, October 3.—Denial has been made by the City Trustees upon Superintendent G. A. Wiese of the Municipal Electric Light and Power Plant for his resignation. He has requested that he be allowed a delay before acting, awaiting the return of City Trustee Dr. H. M. Pond from St. Louis. This has been granted and the change in the superintendency will not be made until the arrival home of that official.

Repeated misunderstandings between City Trustee William M. Bowers, chairman of the electric light plant committee, and Superintendent Wiese over questions pertaining to the operation of the works are the direct cause of the demand for the latter's resignation. In speaking of the matter Mr. Bowers said:

"We have demanded Wiese's resignation and a majority of the City Trustees have accepted my belief that the present superintendent is not the man for the place. He was asked that he be permitted to talk with Dr. Pond before he decides what to do. Dr. Pond is now out of town and it is not probable that we will take any action until he returns. He agreed with me that Wiese's removal is necessary, and I feel that I have carried my point and we must have a superintendent at the head of our municipal light plant who will do what he is told."

LABOR UNION STATE GRANGE IN SESSION.

BARTENDERS' UNION HOLDS MEETING—NOTES OF INTEREST.

The Bartenders' Union held a meeting last night which was largely attended. From the enthusiasm and interest displayed at last evening's session, there is every indication that the union will regain the condition of prosperity which for a time was at low ebb.

Five candidates were initiated and three applications placed on file. The initiation committee reported that there was a general trend of favor in the direction of union-made goods and that the efforts of the committee to agitate the matter was meeting with good results.

APPOINTED DELEGATES.

A donation of \$20 was made to the textile workers of Fall River, Massachusetts.

On October 11, a labor drama will be produced under the auspices of the union, at Dixie Opera House. The play is entitled "A Man of the People" and the production is in charge of the Actors' Union.

REPUBLICANS WILL HOLD MANY MEETINGS

Plan to Make a Lively Campaign Throughout the Third Congressional District.

The regular meeting of the Alameda County Republican Club was held last night at the headquarters in the Oakland Bank of Savings Building. The meeting was given over to a general discussion of the campaign and arranging dates for the various meetings through the county.

The Congressional Committee was also present and its members took part in the general discussion. Dr. C. L. Tidale was appointed a committee of one to confer with the Republican State Committee for the purpose of securing noted orators which have been engaged by this committee.

A large meeting is planned for San Leandro on the night of October 7. The committee last night decided to make this meeting one of the best of the campaign and some good speakers will address the people of the eastern portion of the county. There will be a band of music present and, of course, the usual bonfire will burn brightly in front of the meeting hall. Plans are also being made for a large gathering in Alameda on October 11th. Dr. Tidale has night promised that this meeting would be one of the most enthusiastic of the campaign.

Tonight there will be a rally at Benicia. Several good speakers have been engaged to talk on the issue of the campaign, and it is believed that the Republicans of Contra Costa county will turn out in large numbers.

The following is the list of meetings arranged by the committee last night:

October 6, University; 7, San Leandro; 8, Concord; 10, Dixon; 11, Park street, Alameda; 13, open; 14, open; 15, Suisun; 17, Walnut Creek; 18, Berkeley; 19, Niles; 20, Livermore; 22, Antioch; 24, Rio Vista; 26, East Oakland; 28, Pleasanton; 27, Martinez; 28, East Oakland; 29, Vacaville; 31, Mission San Jose.

CLUB FOR TRANSIT EMPLOYEES

Men Will Have Fine Quarters in Company's Building.

The plans for the athletic and social club of the Oakland Traction Company, formerly the Oakland Transit Consolidate, which is being organized for the benefit of the company's employees, are well under way. General Manager W. F. Kelly, who is the originator of the idea, has offered, on behalf of the corporation, to fit up all the spare space in the general office building at San Pablo avenue and Twentieth street, for the benefit of the company.

The company hopes to have the clubrooms ready by the last of December.

It is proposed to utilize the entire second story of the building for the various departments of the club, including billiard, pool and card rooms, a reading room, a gymnasium and a gymnasium. In the long annex of the building, where the cable machinery of the old power station formerly stood, a bowling alley and a shooting gallery will be installed, and a part of the space now occupied by the line repair department and stable will be divided off for a bath and wash-room. Adjoining this will be one of the locker rooms, and another will be built on the second floor adjoining the gymnasium.

The work of fitting up the rooms will be done and the expense of the company, and the use of the building will not only be given to the members of the club free, but the corporation will buy the furniture and apparatus and install and maintain the lights. The only expense the members will be the salaries of a janitor, porter, etc.

The carmen and other employees have received the proposition enthusiastically, and committees have been appointed to draft by-laws and to formulate plans for the organization of the club. These committees met last night and discussed a plan of organization. The committee on organization voted to begin work at once on all the different lines of the company in order to perfect the organization as soon as possible. It was suggested that the initiation fee be fixed at \$2 and the dues at 50 cents a month. The committee will meet next Monday evening.

RATE ON APPLES.

PORTLAND, Oregon, October 3.—The Northern Pacific Railroad has announced a rate on apples to apply from points in eastern Washington and Idaho, including the Washington and Columbia River branches, as far East as Staples, Minnesota. The new rate will be sixty cents per hundred weight, a 5000 pound minimum, against a previous rate of 75 cents with a 54,000 pound minimum, and will be effective October 8th.

The change is made in order that the second grade apples can be shipped from the Washington and Idaho points to the Eastern market as well as those of first grade.

LIVELY SCENE IN LIVERPOOL

Men Will Have Fine Quarters in Company's Building.

The plans for the athletic and social club of the Oakland Traction Company, formerly the Oakland Transit Consolidate, which is being organized for the benefit of the company's employees, are well under way. General Manager W. F. Kelly, who is the originator of the idea, has offered, on behalf of the corporation, to fit up all the spare space in the general office building at San Pablo avenue and Twentieth street, for the benefit of the company.

The company hopes to have the clubrooms ready by the last of December.

It is proposed to utilize the entire second story of the building for the various departments of the club, including billiard, pool and card rooms, a reading room, a gymnasium and a gymnasium. In the long annex of the building, where the cable machinery of the old power station formerly stood, a bowling alley and a shooting gallery will be installed, and a part of the space now occupied by the line repair department and stable will be divided off for a bath and wash-room. Adjoining this will be one of the locker rooms, and another will be built on the second floor adjoining the gymnasium.

The work of fitting up the rooms will be done and the expense of the company, and the use of the building will not only be given to the members of the club free, but the corporation will buy the furniture and apparatus and install and maintain the lights. The only expense the members will be the salaries of a janitor, porter, etc.

The carmen and other employees have received the proposition enthusiastically, and committees have been appointed to draft by-laws and to formulate plans for the organization of the club. These committees met last night and discussed a plan of organization. The committee on organization voted to begin work at once on all the different lines of the company in order to perfect the organization as soon as possible. It was suggested that the initiation fee be fixed at \$2 and the dues at 50 cents a month. The committee will meet next Monday evening.

SOUTHEAST CORNER THIRTEENTH AND WASHINGTON STREETS

HIS CHALLENGE WAS ACCEPTED

HOW STEWARD BORCHERT CALLED DOWN A FIGHTING MAN.

Wm. Moss, in fighting mood, came to the Receiving Hospital this morning for repairs, following a street brawl in which his forehead had been cut open, and minor bruises sustained.

On the operation table, Steward Borchert proceeded to give careful attention to the belligerent fellow's wounds, but he did not work quickly enough to suit the fastidious Mr. Moss and the steward was soon informed by his patient that "if I was on the floor I would clean out this bum joint."

The Receiving Hospital and all of its attendants constitute the police of Steward Borchert's life, and the reflections cast upon the institution by Mr. Moss, and the challenge issued by the would-be belligerent aroused the ire of the brawny steward who weighs about 250 pounds.

Instantly he picked up the man on the table, stood him in a corner and invited him to "get busy" if he thought he could clean out the place or improve it in any way. The exertion of the steward most of the end of his finger nails which were torn off and part of his shirt sleeve, but the satisfaction he experienced in standing up to the fighting chap compensated him for the loss of his nails.

"Now," quoth the steward, "I think we will send you where you seem to belong, and that is in jail."

Moss sobbed suddenly when the police came to take him away. He was taken to jail despite his protestations, charged with drunkenness.

PIEDMONT PARLOR YEAR AHEAD

SEEKS HEADQUARTERS FOR NEXT ADMISSION DAY IN SACRAMENTO.

Daniel Doody and J. J. McElroy will leave for Sacramento tomorrow night for the purpose of securing headquarters to be used by Piedmont Parlor, Native Sons of the Golden West, in that city during the celebration next year of Admission Day. They are going thus early in order to forestall a big demand for Native Sons parlor headquarters which will soon take place, the accommodations of the capital city in this respect are somewhat limited and Piedmont Parlor desires to be early on the ground to get the best place available.

ATTORNEY TELLS OF ST. LOUIS FAIR.

Thomas J. Thompson, a well-known Oakland attorney and insurance man, returned from a trip to the Eastern States yesterday. He traveled as far as New York City, but one of the principal points of interest to him on the trip was the World's Fair at St. Louis, and the California exhibit there. Speaking of this he says:

"I entered the St. Louis fair grounds prepared to be somewhat disappointed as to California's exhibit. I knew that the goods, specimens of California products, were all right; that they were world beaters and must meet with attention and recognition if properly represented."

"But, I have been informed that there was such a conflict between Northern and Southern California on the part of the exhibits of particular distinction that there was danger that the influence of the whole California exhibit would be neutralized and made to count for little."

"I found that this was not the case. I found that the California exhibit in the St. Louis building was the most attractive spot in the whole Exposition, and that everybody was pressing about it and talking about it. I found that there was no jealousy exhibited on the part of either Northern or Southern California."

"I found that if the champions of the North and South, over their oranges and apples, best in the universe—climate, they did not deny that the Northern counties had merits and products that were the staidest most of the exhibition and recognition. How could they, even if they wished to, which was not apparent, when there was the exhibit of the same county, representative as it is of many counties possibilities, both North and South. By their fruits ye shall know the tree, and the products and prospects are there. There is no room for controversy."

PERMANENT TERRACED APPROACH AND ESPLANADE LEADING FROM OAKLAND AVENUE TO THE SUMMIT OF VERNON HEIGHTS

The old Steps, wooden worn and decrepit which for years formed the boarding and disembarking station on the Oakland Avenue car line for Vernon Heights have been replaced by an improved permanent and ornate structure of concrete with the additional adjunct of a waiting room which acts as a great accommodation to the people of that section. A picture of the design appears above.

The plans were drawn by Leo L. Nichols and the work was performed under the supervision of a committee of residents comprising C. D. Bates, Jr., F. W. Bliger and G. H. Derick.

The improvement is one of the most perfect of the kind in this city and its beauty and its completeness are at once a tribute to the refined taste and liberality of the residents of that section.

WORK ON THE ST. ANTHONY'S TO GIVE OPERETTA.

COMPANY WILL BEGIN GRADING ON RIGHT OF WAY.

SAN FRANCISCO October 5.—The Western Pacific Railroad will begin grading its right of way next month at Stockton and Marysville, this State, and at Reno, Nevada.

Twenty-eight heavy locomotives to be used in construction work have been ordered from Eastern manufacturers also 200 ballast cars, also two ballast spreaders two ballast unloaders and flat box and gondola cars to the aggregate number of 800. There has also been placed with the Colorado Fuel and Iron Company an order for 6,000 tons of steel rails for future delivery. These rails are to be standard eighty-pound per yard.

The company is seeking to buy the Salt Lake City franchise for thirteen miles of the Salt Lake and Los Angeles Company and its offer of \$750,000 for the same is now being considered. The franchise covers a right of way within the city of Salt Lake to a connection with the Rio Grande system's yard. The latter system is a good property and its Salt Lake yards and depot are to be used by the Western Pacific.

HURT BY AUTOMOBILE.

CHICAGO October 5.—Crushed beneath their overturned automobile John Merrill a retired South Chicago banker and his wife have been held prisoners while a number of men struggled to lift the heavy machine. When released Mrs. Merrill was found to be severely injured and is being taken to the hospital.

Mr. Merrill was driving the machine at a good speed when the front wheel struck a curb. The automobile slipped and the car rolled over on its side. The Merrill family turned and dashed to the side of the street. There the front and rear wheels on the right side struck into a spring which and the machine was sprung.

MISS MARION HOWARD PITTON

On Thursday next at 8 p. m. the boys of St. Anthony's School will give their operetta together with a varied program of vocal musical and dramatic exercises in St. Anthony's Hall.

Preparations are being vigorously pushed forward and every effort is being made to ensure the comfort and enjoyment of the parents and friends who will accompany the boys by their presence.

Brother Pican who has charge of the proceedings and who has conducted the rehearsals assures all that the boys are ready and willing to exhibit their material in the operetta and in the different items before their names.

Miss Marion Howard Pitton, who has just returned from the East after a brilliant completion of extensive musical studies will be warmly greeted by her smiling friends on the first appearance in St. Anthony's Hall.

Professor Pellerhane's orchestra will accompany the boys during the evening.

A full dress rehearsal will be given on Thursday, at 1:30 p. m., for the children of the parish.

ITCHING ECZEMA

In July 1883, I began to break out with Eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair. I began S. S. S. doubtful of a cure, because the disease had run so long, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered.

1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the action of S. S. S. off by the blood that cause the irritation and eruptions upon the skin. The acid must be neutralized and the system cleansed of all humors and poisons before the cure is permanent.

S. S. S. is guaranteed entirely free of Potash, Arsenic and other miner salts. Book on the skin and its diseases sent free.

Medical advice furnished free.

SERIOUS RUNAWAY AT PLEASANTON

SIX HORSES INJURED AND BIG WAGON BROKEN IN PIECES.

PLEASANTON October 5.—Six horses attached to a big wagon near the scales loaded with sugar beets, ran away Monday afternoon while the driver left them to help with another team.

The runaway horses made good time until they came near the railroad crossing where they ran into the foot bridge. All six horses plunged down into the gutter about ten feet below. The wagon was smashed into kindling wood. The harness was broken but with the exception of a few bruises the horses were not seriously hurt.

JOINT ENTERTAINMENT

Los Altos Circle No. 58 held a joint entertainment Monday with the Woodmen of the World. A large number from both orders were present and a delightful evening was spent in playing cards.

Mrs. L. A. Derrick grand organizer from San Francisco was the guest of the evening. At 12 o'clock all adjourned to the banquet room where delicious refreshments were served. The tables were artistically decorated with choice autumn flowers and evergreen.

CELEBRATES BIRTHDAY

Little Jack Luff eldest son of Mrs. D. M. Luff celebrated his seventh birthday Tuesday at his home on First street. About thirty little friends had been invited in to help little Jack spend his happy day. The little folks played on the lawn until 5 o'clock when all were invited into the beautifully decorated

dining room to partake of a bounteous birthday supper. Jack sat at the head of the table and assisted in waiting upon his guests.

MISS HARMS IMPROVING.

Miss Ida Harms one of Pleasanton's most popular school teachers is in a hospital in Oakland where she has had a serious operation performed. Miss Harms is doing nicely and will be able to return home later in the month.

ASPHALT PAVING FOR SAN PABLO

PROPOSITION MADE TO PUT DOWN MATERIAL AT 19 CENTS SQUARE FOOT.

A petition is being circulated by E. Confield, the well known contractor of this city among property owners on San Pablo avenue for the purpose of paving that thoroughfare with asphalt.

The proposition is to use this material which is considered the favorite for paving in many of the large Eastern cities, and to place it on the avenue at a charge of 19 cents per square foot.

This proposition is made to the owners between Fourteenth and Twentieth streets.

The paving of Telegraph avenue with bitumen cost the property owners 22 1/2 cents per square foot.

The asphaltum which it is proposed to use comes from California beds and is said to be equal to that which is being used in the East, which comes from the Island of Trinidad and which is found in use in Washington, Baltimore, Detroit, Omaha and a number of other places.

DEMOCRATS TO OPEN CAMPAIGN

The campaign of the Democrats of Alameda county will open with a mass meeting at the Macedonia Theater on the evening of Wednesday, October 5. Judge John Garber will preside at the meeting.

Hon. D. M. Delmas will be the chief

speaker though a number of candidates will also address the assemblage. The complete list of speakers has not yet been decided upon.

Arrangements are to be made at once for a meeting of the delegates from the Fourth Supervisorial District to nominate Harry N. Morse as the law does not permit nomination by the county central committee as formerly.

BRILLIANT MAN KILLED BY TRUCK

NEW YORK October 5.—John Howard a descendant of one of the earliest American colonists and who claimed to trace his lineage back to the early English Kings is dead from injuries received in being run down by a truck on Upper Broadway.

His body lay in the hospital morgue several hours unidentified. Search instituted by persons with whom he had engagements led to his identification.

Howard studied surgery in his youth and later took up music. Twenty-five years ago his attainments in the latter made him famous. He was born in the Civil War and later was graduated from Yale. His knowledge of anatomy he brought to bear on the cultivation of the voice and his studies on the subject attracted wide notice.

Only the day before his death he had completed the manuscript of what he said would be his last work. The concluding pages were in his pocket when he met with the fatal accident.

Howard enjoyed a large income from the Southworth estate in Massachusetts which he is said to have given away almost as fast as it was received.

FAIRBANKS WAS PLEASED.

LITTLE GIRL GAVE HIM A BUNCH OF CALIFORNIA FLOWERS

'To have a daughter like you is better than to be Vice-President of these United States.'

So said Senator Fairbanks yesterday afternoon at Livermore as he raised little Miss Johnson in his arms and kissed the child twice. The incident occurred when Senator Fairbanks was being greeted by the people of the eastern portion of Alameda County and when pretty little Miss Johnson presented the Republican candidate for Vice-President with a huge cluster of California flowers.

Livermore gave Senator Fairbanks a rousing reception yesterday afternoon. Crowds of people of the countryside gathered at the depot to give the distinguished visitor a royal welcome and to listen to his address on the issues of the campaign.

The chairman of the day was J. D. Clark, an attorney of Livermore.

Senator J. R. Knowland was there to welcome the visitor on behalf of Alameda County as was William Fitzmaurice, Edward Planer and J. H. Long representing the County Central Committee. Senator Knowland also delivered an address as did Supervisor Howard of the First District and Mr. Stronbridge the Republican candidate for Assemblyman.

After the ceremonies Senator Fairbanks and party left on the trip south.

WILL SEND MEAT TO THIS CITY

MODESTO October 5.—O. McHenry, the wealthiest man in Stanislaus county filed articles of incorporation today of the O. McHenry Company.

The company's capital is placed at \$1,000,000, three-fourths of which is subscribed by McHenry himself. The company proposes to enter into the meat business on a large scale.

A struggling and packing plant to cost \$300,000 will be built at Modesto at once. A refrigerating plant of large capacity will be erected in Oakland where a site has already been bought for the purpose.

The company intends to enter into active competition with the meat companies which now control the trade of San Francisco and the other cities around the bay.

Saved From Terrible Death

SPORTING NEWS OF THE DAY

GRAY HORSES TO BE USED

METROPOLITAN JOCKEY CLUB PURCHASES FOURTEEN LIGHT ANIMALS.

Nothing but gray horses will be used as utility horses at the Jamaica track when the racing season shifts to the course in about two weeks hence. Secretary Edwards, of the Metropolitan Jockey Club, has just purchased fourteen from the Brooklyn Farm Department—two for the starter's wagon, two for the ambulance, and the others to pull track harrows and scrapers.

An impromptu race through the field may result if the horses delegated to draw the starter's wagon should take the signal bell at the start for a fire alarm. If Tom Healey isn't careful, Mr. Edwards will be silver-foot for the use of the patrol judge.

REMARKS ABOUT TOM BROWN

SEATTLE FANS AND PAPERS DO NOT LIKE WORK OF THIS UMPIRE.

Robbed again! That's the way the Northern papers head the account of the Seattle-Tacoma baseball games.

The Seattle Times, one of the best sporting papers in the North, urges that Umpire Brown be placed upon the path now being traveled by Jack O'Connell. Seattle Times declares that Brown is a thief when it comes to umpiring a game and that he should be placed under a bank of clouds.

"It's just about time this Umpire Brown went the peaceful way of Jack O'Connell," says the Times. "He is a black mud of oblivion the better off the game will be. It is mighty strange that President Baugh can get good officials. Slat Davis has made a good rep for himself, and should be given a trial."

OFFER TURNED DOWN

WASHINGTON CLUB REFUSES \$5,000 AND LACHANCE FOR STAHL OF SENATORS.

The Washington Club has just turned down an offer from the Boston American Club of \$5,000 and First Baseman Lachance for Jake Stahl, of the Senators, and it is safe to say that the amount would not be beneficial to this player, who has made such a great hit with the Senators.

The Washington Club is not inclined to sell players who have the interest of their team at heart.

Manager Donovan is determined to build up his team, and does not intend to do anything to jeopardize its success another season. Furthermore, he is of the opinion that any deal that would involve the transfer of Lachance to Washington would not be beneficial to his club. In conclusion, Donovan says: "Boston has as much chance of getting Jake Stahl as we have of landing Freddie Fernald. I might consider such a trade, or any that would help the team, but none that would involve a trade of a rising youngster for a 'has been.'"

GRIDIRON IS NOT READY

INTERCOLLEGIATE GAME WILL BE PLAYED ON THE OLD FIELD.

BERKELEY, October 5.—That the intercollegiate football game to be played on October 15 between the Lick and Berkeley "babies" will not be played on the new California field is almost a certainty. The work on the bleachers at the new field has been progressing slowly and now with the Freshman game only ten days off the carpenters have not yet finished the bleachers on one side of the field. Then there is the fencing of the field, which is quite a job in itself.

Beside the slowness of the contractors having the carpenter work in charge there is another cause for delay and that is the setting of the made ground at the south end of the big amphitheater. After taking careful stock of the situation Manager Ezra Decoto of the University Athletic Association has announced that the first game with Stanford will be played on the old field on California campus at Berkeley. Instead of at the new amphitheater. This field is in good condition and is being used for all the preliminary games of the season. It has a small seating capacity, however, and there will be much crowding, judging from the attendance at former Freshman games.

BOXING DEPENDS ON ELECTION.

NEW YORK FIGHT FANS WOULD LIKE TO SEE NEW GOVERNOR.

New York fight fans are awaiting the result of the State election with unusual interest. Anything that promises a change in Governors concerns them, for so long as Odell is in power at Albany there will never be another boxing bill. He has said positively that he will never sign a boxing bill, and would not even permit one to reach him.

Odell is against boxing for the reason that after working for the Horton law and using his influence to have the bill passed he was turned down when he asked for admission to the Fitzsimmons-Jeffries fight at Coney Island.

William E. Brady had remarked some time before to Odell that any time he came around with his friends he would be given the best in the house. Accordingly Odell and several politicians of prominence went over to Coney Island on the night of the fight and sent in their cards. The management not only refused to pass the statesmen in, but was unnecessarily rude and impolite in refusing the request.

Odell is a big man and a game man, and he never forgets the incident, his score being given to him in a false position. He therefore waited his time and put the kibosh on boxing. He will wait there until he is out of power.

Distict Attorney Jerome favors a boxing bill, and so do the majority of State legislators. But Odell is inflexible and will not consent to any measure permitting pugilism. With a change of Governors it will undoubtedly be a relaxation of the ban on boxing. If this State becomes up there will be a general revival all over the country.

MANAGER HALL DISLIKED

TACOMA PEOPLE WISH THAT PARKE WILSON WAS WITH THEM.

From reports that have drifted to us from the North, Russ Hall is not making good as manager of the Tacoma team. It has developed that both fans and players like Parke Wilson better than the present commander of the Tigers and there is considerable kicking going on up North over Hall's actions.

It is claimed by the Northern papers that Hall has a choice collection of sailors' oaths that he does not hesitate to use when things go against him and his volley of dumb-dums is heard in all portions of the grand stand. Again, Hall, has been put out of the game on several occasions recently for his ungentelemanly conduct.

In discussing Russ Hall, the Tacoma News of Friday said:

"It is easy to foresee that Russ Hall will not be a success in his new position—captain and manager of the Seattle baseball aggregation. He let fall from his lips yesterday a sentence that shows only too well why he will fail. After being particularly abusive for several innings, the umpire motioned him away. 'Well,' shouted Rusty, 'you understand that I've got the right to say something.' And there you are."

OAKLAND PLAYS GREAT BALL

DEFEATS SAN FRANCISCO IN MAJOR LEAGUE GAME BY SCORE OF 2 TO 1.

Teacher Buchanan was in fine form yesterday afternoon and he pitched a major league game against the San Francisco people. Oakland played great ball yesterday, one of the best games ever seen on the home diamond as the score of Oakland 2, San Francisco 1, might indicate. It was the kind of a contest the fans like to witness and a few more such games and the Idora Park seating capacity will have to be increased.

A run was captured by the Seals in the eighth period of playing when Irwin hit a two-bagger in the same place as had Schlieff. Both of these swats caused a good deal of discussion. Many of the fans claimed that both were fouls, but Empire McDonald and the fans who were in a correct position to notice proclaimed both to be safe ones. Irwin scored on a pinch double by Anderson.

Let us have more games like yesterday's affair.

EAGLES BOWL TWO GAMES

HIGHEST SCORES ARE MADE BY CAPTAIN BIRD AND E. BERQUEST.

Two out of the three scheduled games were bowled by the Eagles at the Palace Alleys last night. Captain Bird thought best to eliminate the third game, as the players had not yet become used to bowling that number of games and in all probability the third game would result in more harm than good to the rollers.

The highest average scores were made by Captain Bird, and by E. Berquest. The former made an average score of 210 and the latter 192. The captain is very much encouraged over the enthusiasm manifested by the team and states that the Eagles will have a good chance to lead every other bowling aggregation in the city.

The team will meet for their next club roll next Thursday evening, when the regular quota of games will be rolled.

BROOKLYN CLUB ENTRIES

YEARLINGS MUST BE SELECTED FOR TWO-YEAR-OLD STAKES FOR 1905.

Before the present racing season has ended trainers are confronted with a trying proposition, that of selecting their yearling representatives for the 2-year-old stakes of 1905 and the 3-year-old events for 1906. The eligibles for these events are now yearlings, and trainers must decide from what the baby racers have shown in their limited trials as to their merits, to be classed among the stake candidates.

The Brooklyn Jockey Club announces conditions for ten of its most important fixtures, entries for which close Monday, October 10. For 2-year-olds there are the Great American, Belmont, Expectation, Hudson, Crittendon and Junior Champion. For 3-year-olds the races to be run in 1906 are the Brooklyn Derby, Carlton, Gazelle and Hindoo. These are the richest events run at Gravesend with the exception of the Brooklyn Handicap.

The added money in these events ranges from \$300 to \$500, and owners cannot afford to overlook them in their calculations for the future.

TEMPLE LOOKS FOR FIGHT.

OUT WITH A CHALLENGE TO MEET ALL LIGHT HEAVYWEIGHTS.

Joe Macias, the one time manager of "Kid" Broad, is out with a general challenge to light heavies on behalf of Larry Temple, who was recently cast out with contumely from the stable of Tom O'Rourke, the manager alleging that the colored boxer conspired with one Walcott to cut up a purse in Baltimore without declaring the manager in.

FIGHT DECLARED A DRAW.

BILLY SNAILHAM AND JOHNNIE RITCHIE BREAK EVEN LAST NIGHT.

Billy Snailham of San Francisco and Johnnie Ritchie of San Diego fought a good fight to a draw last night at the latter city.

The mill went a full twenty rounds and was remarkably even. The pace was very fast, but both boys were in good condition and finished strong at the conclusion of the battle.

They will probably be matched again. A number of sporting men from about the bay witnessed the mill.

GREAT TENNIS TOURNEY.

AFTER FOURTEEN GAMES BUTLER IS DEFEATED BY LOMBARD.

By all odds the best match in the Berkeley Freshman tennis tournament was the one played between Charles Lombard and Fred Butler yesterday afternoon. More properly speaking, the game between these two players yesterday was only the conclusion of the match begun last Saturday afternoon. At the conclusion of the play last Saturday the score was set all, and four games all. By common consent they agreed to play the deciding set from the beginning yesterday.

In the opening set Lombard showed the greater strength, but as the match lengthened Butler improved and he turned the scale on Lombard in the second set. In the third and deciding set, yesterday afternoon, Butler lost the first two games, but in return annexed the next four in succession. At the rate he was playing at that time he looked to be an easy winner. Lombard at this point played more carefully, and Butler lost a trifling of his smash and dash, allowing Lombard to creep into the lead. Then began a see-saw game until Lombard finally annexed the fourteenth game, the set and match. The final score was 6-2, 2-6, 8-6 in favor of Lombard.

The finals of the senior class tournament are to be played this afternoon between J. H. McCollough and Doremus. The match promises to be of unusual interest. A number of the women were among the spectators of yesterday's playing.

Following are the scores of the matches completed yesterday:

Seniors—McCullough beat Kellogg 6-2, 6-1; McCollough beat Campbell 6-3, 8-6. Freshmen—Lombard beat Butler 6-2, 2-6, 8-6. Morgan beat Pack 6-0, 6-1.

Matches scheduled for this afternoon are as follows:

2:15 p. m.—Baker and Varrel.
4:15 p. m.—Senior finals between McCollough and Doremus.
6 p. m.—Schmidt and Morgan.
All final matches will be the best three out of five sets. The winner of the senior tournament will play the junior champion and the Sophomore and Freshman winners will meet.

BAD WORK OF JOCKEYS

BOYS SHOW POOR JUDGMENT AND HORSES FALL DOWN ON FORT.

Miss Crawford finished first to Bud News at North yesterday in a race which showed bad judgment on the part of at least three jockeys. Bud News took the lead at the start and maintained it until the back stretch, where the terrific pace began to tell on him. Miss Crawford made her race at this point and won by a length. Slinging Master and Woodlawn Belle came down the stretch like a stream in the fifth, the former winning in the last jump.

Monte won the third from Lord Dixon in a hard finish in which Allen Avon was a close third. J. V. O'Neill won the second and J. Ed. Grillo carried off the honors in the first.

POOR DAY FOR FAVORITES

FOUR HEAVILY BACKED ONES FAIL TO MATERIALIZE AT MORRIS PARK.

Over 1000 people saw the races at Morris Park yesterday. It was a poor day for the favorites, four of the heavily backed ones failing to win a place in their events.

The leading feature of the day was the Fairview stakes at a mile and one-sixteenth over the hill. The spectators placed the bulk of their money evenly on Granada and Dick Bernard, who finished in order named. Topic took third place.

In the Corinthian steeplechase, Mr. Stone brought Royelle under the wire first. Captain, piloted by Willie Davis, won the first race by a head. Escutcheon beat Sir Brillar in the two-year-old race.

In the last event, Good and Plenty was ridden by Shaw, but finished third to Waterford and Water Pansy.

NEW CATCHER TRIED OUT

CATCHER POULTNEY OF ST. MARY'S APPEARS IN A 'FRISCO UNIFORM.

A youth by the name of Poultney made his debut into league baseball society yesterday afternoon by occupying a position behind the bat for San Francisco.

Poultney has been catching for St. Mary's College of this city and has been doing excellent work. He was anxious to be given a trial in the league of the grown-ups, so Harris let him wear the mask and pad yesterday. Poultney caught a good game.

He was a bit nervous and this was especially noticeable when he went to the bat. However, he overcame the nerves, but did not show promise of being a heavy hitter. Also, he was afraid to throw to second. But it was his first game and he did well for a first showing.

Pitcher Wheeler of San Francisco will be out of the game for days to come. George attempted to stop a dum-dum in the shape of a baseball yesterday with the result that his throwing hand was torn open. He was forced to retire and Barber was given his job.

It was Byrnes who drove the shell. He found Wheeler's tender on the end of his bat and he gave the leather straight for the pitching Tiger. Wheeler stuck out his hand and met the ball squarely. It tore quite a hole in George's pitching mitt and he will be out of fray for many days.

ROVERS TO PLAY HORNETS

GREAT ASSOCIATION FOOTBALL SCHEDULED FOR LOCAL GROUNDS SUNDAY.

Albion Rovers versus Oakland Hornets. Mr. Pomeroy's crack association football team will contest a game with the Albions at Freeman's Park Sunday afternoon at 2 o'clock. This will be the first game of the season and there should be a large concourse of spectators, as interest is very high as to what the composition of both teams will be. The Hornets have undoubtedly secured all the workers from the season, and the prospects of the club are better than they have ever been. The track handicapper of the Times of last year have been secured, namely, Taylor, Duncan and McGregor, and the playing powers of those three men are well known in football circles. The rest of the team is well balanced and the team as a whole should put up a fine exhibition with the Albion Rovers.

The Albion Rovers have no cause to grumble. The management has secured the best bunch of players in the team this season. They have secured the services of Taylor, Duncan and McGregor, and the team as a whole should put up a fine exhibition with the Albion Rovers.

TROUBLE OVER REGATTA PRIZES

Claim is being made that certain jewelers of this city and members of the Alameda Boating Club are having difficulty over the distribution of prizes won in the recent rowing regatta.

It is said that the orders for prizes won by the rowers of the Alameda Boating Club were not cashed for their face value but the goldsmiths subtracted 25 per cent of the face value of the order as a sort of bonus or rebate.

The carmen found this to be against their liking and so reported the matter to the Pacific Athletic Association, but that body passed the matter to the committee in this city that did the collecting of the prizes.

W. C. Donnelly, whose son was co-swimmer for the large crew of the Alameda, this of the affair as his son discovered it.

"My son had orders amounting to about \$60 from the Oakland committee and he selected something at a jewelry store in Oakland, and he also selected an article at another store. He wanted the jeweler to accept his order from the regatta committee and give him another order for the balance on another store. But this was refused, the jeweler stating that if he did he would have to pay the 25 per cent discount on the balance of the order. In consequence, my son had to have all his orders cashed at the same place. When Willie Burnham of the junior barge crew went to get his order cashed he met with the same condition of things, but he refused to submit to the reduction from the amount called for in the order and declared he would investigate it."

Al Kline, president of the Alameda, had this to say about the way the recent regatta has been conducted and the "grat" that has characterized the casting of the prizes:

"There is always a lot of graft about sporting events," said he, "and there is a bad middle over these prizes. I was chairman of the regatta committee for the events on Lake Merritt in September and all the orders won by the carmen in the races and they were good at any store in Oakland. Before that prizes could only be cashed at four or five jewelry stores named, and there was a rake-off somewhere. About September 15 or 16 William Burnham of our club, who had a \$25 order, won in the last regatta, as was one he was cashing for a friend,

MARE RECORDS BROKEN

GRACE BOND MAKE NEW TIME LIMITS FOR THREE-YEAR-OLDS.

Grace Bond defeated Alta Axworthy and won the three-year-old division of the Kentucky Futurity, establishing at least three world's records in the opening meeting of the third, fourth annual meeting of the Kentucky Trotting Horse Breeders' Association at Lexington yesterday.

Grace Bond's time was 2:09 1/2, 2:09 1/2 and 2:08 1/2. These performances made in the first, second and fifth heats of the three-year-old records for the distance. Spectators thought that the little trotter would not be able to keep up the terrific pace, but she did to the front and maintained her lead throughout.

DIAMONDS GO UP.

NEW YORK, Oct. 5.—Notice of a five per cent advance in prices abroad has been received by diamond importers and cutters here. This makes the eighth similar advance in two years.

The present advance applies to all rough goods, and the cut stones are expected to follow promptly.

Three and four-inch silk taffeta ribbons in nearly all the colors is selling for 15 cents a yard on the bargain counters.

ENTRIES FOR GOLF GAME.

NEW YORK, October 5.—Seventy-two entries have been received for the women's golf championship, which begins at 10 o'clock on the Merion Cricket Club links, near Philadelphia.

Mrs. B. F. Horne, the title holder; Mrs. C. T. Scott, twice champion, and Mrs. E. A. Manlove have not sent in their names.

Additional interest will be lent to the struggle by the appearance of Miss Louise Dod, the British champion. Miss Dod's appearance will mark the first in the history of the game here of a British amateur title holder taking part in the American championship tournament.

Among the names appearing on the entry list are: Mrs. Herbert Mum, San Francisco Gold Club; Miss Mabel Higgins, Midwestern Country Club, and Miss J. A. Carpenter, Westward-Ho.

NEWS NOTES

Miss Mamie Ramage who is attending the California Women's Hospital in San Francisco is enjoying a week's vacation at her home in Haywards. The bride is a daughter of Mr. and Mrs. August Ubhoff of this city. The groom is the son of Judge and Mrs. C. Prowse.

The young couple will journey southward for the honeymoon, visiting Los Angeles, Santa Barbara, San Jose and other cities. On returning they will make their home in Haywards.

CASTRO VALLEY RESIDENT DEAD

Herman Dittman, a resident of Castro Valley, died at the home of his parents in that place last Sunday evening. Near trouble was the cause of his death. Dittman was twenty-two years of age and was a native of Castro Valley.

The funeral services were conducted yesterday afternoon at two o'clock. Interment took place in Mount Eden Cemetery.

REPUBLICANS AT LIVERMORE

Quite a delegation of Republicans from Hayward and vicinity went to Livermore yesterday for the purpose of hearing the speeches of Senator Fairbanks, Joseph Knowland and others. They report a very enthusiastic meeting.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair
No Matter What Color.

The finest contour of a female face the sweetest smile of a woman's mouth, something of the head, is crowned with a beautiful hair. Scant and falling hair is now known to be caused by a parasite that burrows into the scalp to the roots of the hair where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair that germ must be killed. Neabro's Herpicide, an entirely new result of the chemical industry, destroys the dandruff germ and, of course, stops the falling hair and prevents baldness. Sold at leading drug-gists. Send 10c. in stamp for sample to The Herpicide Company, Detroit, Mich. — Bowman & Co. Special Agents.

**"SHOESTRING" IS
IN JAIL AGAIN.**

BERKELEY, October 5.—Shoestring Johnson, who was arrested last night on a charge of drunkenness and on appearing in court this morning, was sentenced to ten days in his old home, the Oakland County Jail, by Justice of the Peace Elmer Foot. Shoestring gave the name of George Carter, but his old acquaintances in the town of Marshfield, Ohio, had no difficulty in recognizing him. As the prize of a hundred dollars was offered for his capture, Johnson was taken into custody by the police. He is now in the county jail, where he will remain for ten days. Shoestring Johnson is a well-known character in the town of Marshfield, Ohio. He is a well-known character in the town of Marshfield, Ohio.

AN EXTENSIVE PROGRAM FOR TEACHERS RESULT-OF THE ELECTION HARDLY IN DOUBT.

Democrats at a Standstill; Republican Outlook Bright Everywhere, Except Possibly at New York.

(Philadelphia North American.)

NEW YORK, Sept. 27.

Six weeks from tomorrow morning everybody will read in his newspaper the name of the man who will sit as President of the United States during the four years beginning the 4th of next March. That name will be either Theodore Roosevelt or Alton B. Parker.

Contemplating the prospect six weeks in advance of the balloting, it seems almost certain that the name the people will read on that morning in November will be that of Theodore Roosevelt.

The campaign has been a dull and spiritless one, and there has been little in it for either party to brag about.

But such as it has been, the Republican cause has decidedly the best of it. The same thing holds true with respect to the result to which it is leading.

DEMOCRATS HAVEN'T WON A VOTE.

When the Democrats started in the campaign it was with the knowledge that they had to win 55 votes in the Electoral College, besides those of the solid South before they could expect even a bare majority. Nowhere is it apparent that they have as yet succeeded in winning a single one of these votes, to say nothing of the other 57.

Since the State Conventions in this State Chairman Taggart has been talking loudly about Democratic success here, and it must be confessed that Republican prospects in New York are rather dubious. State affairs are, however, responsible for this condition, national questions falling to the side of the situation.

There is a strong revolt in progress against the methods of Governor Odell. This may lead to a repudiation of the present administration. A fact he forced on the recent Saratoga convention and the manifestation of public disfavor over what is now termed "Odellism" may be strong enough to carry down with it the Roosevelt administration.

BRIGHT OUTSIDE OF NEW YORK.

Outside of New York, Republican prospects are as bright as the sun. In 1896 or 1900, of the trans-Mississippi States, Montana, Nevada and Wyoming are the only ones, north of Texas and Missouri, which the Democrats seem likely to carry. Colorado may be placed in the doubtful Republican column, on account of recent labor disturbances; but the best of reports is that the best of the fighting is in that State.

In the Central West, authentic reports say that the Democrats' sixty-day poll of Indiana showed a large Republican majority. The indications about there is, at least, so critical that Chairman Taggart is going to abandon the New York headquarters and spend the last three weeks of the campaign in his own State.

This indicates in the minds of the politicians that at this time it is safe to put Indiana down for Roosevelt and Taft. The indications about Wisconsin will not seriously affect the national ticket, a large Republican majority being assured. Of the other Central Western States, the Democrats have never had the slightest chance to carry a single one.

WEST VIRGINIA DOUBTFUL.

West Virginia is probably doubtful, a fact due to the extreme efforts Henry B. Davis will make to land it in the Democratic column. The indications are that this effort will prove abortive.

West Virginia is a strong protectionist Commonwealth. Her reputation of William L. Wilson, the most popular publicist the State ever turned out, is well remembered. Wilson tipped West Virginia into voting for a

revenue tariff, and the State has not forgotten its experience.

Davis has compromised himself with his party platform to meet the protectionist sentiment, but the State, which adheres so strongly to the fundamental principle of Republicanism, will, in the opinion of the Republican managers, vote as it believes, without respect to favorite sons.

NEW JERSEY DEMOCRATS DEMORALIZED.

In New Jersey, the Democrats, since the split in their party, have almost abandoned hope, and the State is counted safely for Roosevelt.

Connecticut has a habit of following New York and of going as he Empire State goes. But the conditions that this year make New York a doubtful State are so essentially local, as to have no bearing on sentiment in Connecticut, and that State will, as she believes, which is with the Republicans.

In Delaware the situation is as it has been for years—a jumble. The Republicans, badly split as they are, on questions of party control, have only one set of electors in the field, and it is not far wrong to put the State down as inclining toward the Republicans.

Maryland is a doubtful State with Democratic tendencies. Isthmian balloting laws have seriously crippled the Republicans there, although this year the party managers seem their ability to carry the national ticket through on account of a peculiar construction placed upon the law regarding the marking of the ballots. It should, however, be in a column favorable to the Democrats.

SIXTY-NINE SHORT OF A MAJORITY.

Under this computation, the Democrats seem assured of only 160 Electoral College votes, or sixty-nine short of a bare majority. If they carry New York and Maryland they will run this number up to 207; but they will still be thirty-two votes short of a bare majority.

On the other hand, the Republicans, six weeks before the balloting, are counting with certainty on 254 Electoral College votes, or fifteen more than a majority.

They have, too, an excellent prospect of winning fifteen additional votes, with the possibility, which should not be forgotten, that in spite of differences over State matters the Republican national ticket will win in New York.

A FORECAST.

Any way it is put, looking six weeks ahead, it is difficult to see how the Republican cause can fail to elect Roosevelt and Taft, backed by safe and satisfactory majorities, for the division of the Electoral vote which now seem most likely to be ordered by the people when the balloting takes place is as follows:

WILL FURNISH CARNEGIE LIBRARY.

BERKELEY, Oct. 5.—The Town Board of Library Trustees have decided to expend about \$2,000 for the interior finishing of the new Carnegie Library. If the plans of the Trustees are carried out, the interior of the Carnegie Library will be the handsomest on the Coast. All the tables, chairs and cabinets will be alike in style and finish in all the rooms. They will be made of quartered oak, giving a rich and beautiful tone to the library. Librarian D. R. Moore presented the following interesting report to the Board of Library Trustees: Circulation—Direct from a Library, 6,604; through South Berkeley Reading Room, 990; through West Berkeley Reading Room, 428; total, 7,990. Fiction, 68 per cent; other classes, 32 per cent. Borrowers' cards—In for September 1, 1904, 3,601; issued during the month, 424; surrendered and expired, 402; in force October 1, 1904, 3,623. Accessions to Library—By purchase, 15; gift, 22; binding, 3; total, 50. Visitors to branch Reading Rooms—South Berkeley, 3,453; daily average, 123.9-24; West Berkeley, 2,900; daily average, 103.15-25.

TO ENLIST CHINESE.

ST. PETERSBURG, October 5, 8 a. m.—A special dispatch from Moscow under date of October 4, says: A regular recruiting service has been formed by the Japanese army, enlisting what is known as the Chinese volunteer militia. The Japanese are assisted in this work by Lin Se, a Prince of the Chinese Imperial household. The men are paid by the Japanese, but not armed by them with the Japanese modern rifles. They use instead the old musket, of enormous calibre. The Russians have come in contact

SOUTHERN PACIFIC BUYS ENGINES

SECURES TWO LOCOMOTIVES
FROM THE UNION PACIFIC
RAILWAY.

The Southern Pacific Company has purchased two locomotives from the Union Pacific Railway. The locomotives are numbered 1475 and 1480 and will run on the Western Division.

The locomotives have been received at the West Oakland yards, but as they are coal burners and every locomotive on the Western Division is an oil burner, the engines will not be sent out until they have been converted into oil burners. The work of converting them into oil burners will be commenced immediately.

SEARCH FOR THIEF.
Railroad detectives and the police about the bay are searching for the thief who visited the West Oakland yards recently and stole a number of articles from a Pullman car. The property stolen includes a quantity of linen and some car equipment. As yet the detectives have obtained no clue to the thief but the pawnshops and "fences" are being watched and it is believed by the officials that an arrest will soon be made.

UNABLE TO ATTEND.
Owing to the fact that he is unusually busy at the pier directing the work on the ferry, Frank Williams, one of the committee appointed to greet Senator Fairbanks yesterday at Livermore, was unable to be present.

FORGED CLEVELAND'S NAME.
PHILADELPHIA, Oct. 5.—Charged with forging the name of former President Grover Cleveland on a check for \$25, Charles Elliott, a 32-year-old man, was arrested here. It is alleged that he tendered the check in payment for storage charges on his household goods. The police expressed the belief that he was formerly employed at some capacity about the Cleveland home at Princeton.

INTERESTING FACTS.

For Nearly Every Man, Woman or Child.

A short time ago we published a article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy have been abundantly sustained by the facts. People who were, cautious about trying new remedies advertised in the newspapers as I were finally induced to give Stuart's Dyspepsia Tablets a trial, and were surprised and delighted at the result. In many cases a single package costed but 50 cents and any drug store made a complete cure and in every instance the most beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest, but assure our readers we need not say commendatory letters that we will publish each week a fresh list of genuine, unsolicited testimonials and never publish the same one twice.

From James Yemmelis, La Crosse, Wisconsin: Stuart's Dyspepsia Tablets are doing me more good than anything I ever tried and I was so pleased at results that I gave away several boxes to my friends who have all had the same benefits.

From Jacob Anthony, Portmarnock, New Jersey: I have taken Stuart's Dyspepsia Tablets with the best results. I had been suffering for six years and had taken a great deal of medicine, but the Tablets seem to take right a hold and I feel good. I am a farmer and lime burner and I heartily recommend to every one who has any trouble with his stomach to use the Tablets.

From Mrs. M. K. West, Preston, Minnesota: I have received surprising good effect from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend who also suffers from indigestion and she had the same good results.

WILL SEND VIEWS TO ST. LOUIS

COMMISSIONER WALKER ASKS
FOR MORE "SLIDES" OF
ALAMEDA COUNTY.

Theodore Gier, one of the Alameda County Commissioners to the World's Fair at St. Louis has received a letter from Wilbur Walker, also a member of the Commission, who is at the Fair, touching the situation in the Alameda county headquarters at that place.

Mr. Walker says that himself and Custodian Pearce have been busy for the last month in distributing literature of Alameda county and answering questions regarding the climate and resources of this part of the State. He also reports that the attendance has been twice as heavy during the past month as it was before and that he has had very little time even to see the attractions of the great show himself.

He has asked Mr. Gier and Mr. Welby, both of whom are here at the present time, to forward to him some new slides illustrating the beauties and richness of the productions of Alameda county, as he thinks he has used those furnished already as often as seems desirable.

Mr. Gier says that new slides will be prepared and forwarded immediately to be used until the close of the great exposition.

Mr. Walker inquired as to whether or not any steps were to be taken toward packing the exhibits for the Portland exhibition, but has been advised that nothing will be done in that direction until after the Board of Supervisors shall have taken action in the matter.

Mr. Walker will return in a couple of days after which time Mr. Welby will go to St. Louis and remain there until the end of November, when he will be joined by Commissioner Gier, both of whom will bring the excellent collection of Alameda county's resources to a close.

CHURCH FOLKS PLAN UNIQUE PROGRAM.

Arrangements are about completed for the missionary tour of the world at Union-street Presbyterian Church tonight. This is one of a series of unique programs planned by the Missionary Society of the church, and promises to rival if not exceed any of the former meetings. The audience will be grouped in parties of ten, each party to be conducted by a guide to the various centers of missionary interest.

The church has been transformed into a panorama of Oriental display. The tourists will leave San Francisco for Tokyo, Japan, via Honolulu; from there taking the following route: Peking, China; Seoul, Korea; India; Montevideo, South America; returning via Panama to New York. The Custom House in San Francisco. A short time will be spent in each country, learning the customs of the people and being entertained by natives in Oriental costume.

Fifteen young ladies of the College Y. W. C. A. at Berkeley will act as guides, and the evening promises to be both educating and educational. The project is attracting wide interest.

SKIRMISHES WITH THE ENEMY

RUSSIANS DRIVE OFF THE PER-
SISTENT JAP IN SOME SMALL
AFFAIRS.

MUKDEN, October 3.—(Delayed).—A Russian correspondent of the Associated Press who has just returned from Major General Mischenko's division, with whom he has been since September 24, says:

There have been constantly recurring skirmishes in which the Russians have regularly defeated the Japanese, although the engagements have never been very large. The last advance I witnessed was on October 2, when the Japanese made several tentative movements, but were driven back on every occasion by the Russian cavalry.

In this fighting Captain Lepcheln Chertanoff was wounded and also a few Cossacks. The Japanese lost one officer, several tentative movements, but were driven back on every occasion by the Russian cavalry.

The correspondent was with Major General Mischenko's division during the engagement reported October 1 near Tumen, north of Yantai. The Japanese were occupying an entrenched position on Tumen's hill, but the Russian artillery, opening fire at 10 o'clock in the morning, shelled them out and the Japanese fled after slight resistance. Cossacks galloped up and occupied the position. The Japanese were followed to within two-thirds of a mile of Yantai station and the Russians came into contact with them twice during the day. They tried to surround the Russians by means of a turning movement, but supports came up and the movement was broken off.

The Russians finally slowly retired to the north, having collected information as to the whereabouts of the Japanese and making no attempt to hold the position gained.

EXCITING RIDE ON STREET CAR

NEW YORK, October 5.—A ten-ton rolling blast furnace filled with hot iron used for the welding of the joints of trolley tracks has been the cause of an exciting ride for a car load of people in Newark, N. J. The furnace became unmanageable on the top of a steep hill and started down with rapidly increasing headway in the wake of a trolley car bound toward the center of the city.

The motorman put on full speed, but the mass of iron and fire gained steadily. When it seemed that disastrous collision was inevitable the car crew and passengers, several of whom were women, held a hurried consultation and decided that the only chance to save their lives was in jumping. Several leaped off but the crew and two women who had faintly remained on for a quarter of a mile, with the furnace steadily gaining, the runaway machine swerved and struck an oncoming car. The collision was terrific, but although the front of the car was demolished, the passengers escaped serious injury.

No serious ever complaints of its bitter lot.

A few pulls from the black bottle makes the whole world kin.

BANQUET ENGLISH PROFESSOR

SIR WILLIAM RAMSEY SPEAKS OF
HIS OBSERVATIONS IN
AMERICA.

NEW YORK, October 5.—On the eve of his departure for England, after a six weeks' visit in America, Sir William Ramsay, K. C. B., F. R. S., Professor of Chemistry at the University College, London, has been a banquet by the Physical Science Departments of the Brooklyn Institute of Arts and Sciences.

Sir William, in addressing the diners, said he had been much impressed by the great power of organization displayed by leading manufacturing and commercial men in America, but also had learned that men employed in a scientific capacity—especially those engaged in teaching the sciences as well as law and medicine—were earning less than they would earn if they engaged in industrial pursuits.

"This condition of affairs," he continued, "unless remedied, and remedied soon, will lead to the lowering of the whole educational status, for it will inevitably react upon the training of professional and scientific men in this country. If trained at a third rate teachers—as they must be—it is unlikely that they will take the rank which they would have taken if their teachers had been men of first class ability."

"It is not necessary that every professor should earn high emoluments, but it is necessary that those who fill the most important positions in the leading universities of the country should be well paid. I have noticed that very large sums are left over given to teaching institutions in America by a number of rich men. General Ramsay seems to be opposed to the erection of new buildings and sometimes to the founding of entirely new institutions.

While the spirit which leads to such beneficent gifts should meet with the commendation of all men, I would suggest that it would be better if prospective donors would increase the emoluments of existing chairs and in this way secure to the country the services of men who would be well paid.

ST. LOUIS, October 5.—Plans are beginning to assume shape for the restoration of forest park after the conclusion of the Louisiana Purchase Exposition. One member of the restoration committee has been appointed in the person of George E. Kessler, who is at present landscape architect for the Exposition. To other members of the committee are yet to be appointed by the direct vote of the Exposition, and it is probable that Mayor Wells will appoint a committee of three for the city, to cooperate with the fair committee. Already bids are being received for the raising of the buildings.

BERKELEY FRESHMEN 6; O. H. S. 5

A miserable exhibition of football was given by the University of California freshmen eleven yesterday afternoon. The opponents of the "Babes" were eleven students from the Oakland High School. The local boys did well and all Berkeley could do was to make the score 6 to 5. This is the first time since the freshmen have been scored against.

Although Oakland was much lighter than the freshman team, the visitors did surprisingly well, and by the use of a number of trick plays, notably run by Quarterback Ghirardelli, was able to puzzle the collegians and run them over the field. It was while down near their own goal that the freshmen made the fluke which gave their opponents five points. Quarterback Ghirardelli fumbled a kick and the ball rolled behind the line, where an Oakland lad fell upon it.

PORTLAND CREW WIN OUT

BASE STEALING THE FEATURE
OF THE GAME WITH
SEATTLE.

The Portland crew defeated the Seattle crowd yesterday afternoon by a score of 5 to 3 in a game that was even so far as hits were concerned.

Base stealing was one of the features of the contest. Hall, Runkle, Delehanty, Holand, Blankenfeld and McCreele are down on the card for having taken at least one base without permission.

WATCH FRATERNITY FIGHT WITH INTEREST

BERKELEY, October 5.—The fraternities and sororities in the Berkeley High School, together with the school authorities are watching with intense interest the outcome of the case now before the Superior Court of Sacramento regarding the validity of the resolution adopted by the Sacramento High School board prohibiting pupils attending the High School from joining the Greek letter societies or fraternities.

Late Sunday afternoon March Valentino and Henry Ellis, the two youths who were expelled by resolution of the Sacramento board last Thursday night, applied for an injunction restraining the board, Superintendent of Schools O. W. Peckham and Principal Frank Trade of the Sacramento High School from carrying out the provisions of the resolution into effect.

A restraining order was issued by Superior Judge Shields, returnable October 21, when the respondents will be required to show cause why the order should not be made permanent. The court also issued an order prohibiting the respondents from taking any steps looking to the expulsion of the pupils who have brought the action until the time set for further hearing.

A few months ago the High School board of the Sacramento Board of Education adopted a resolution prohibiting pupils joining the fraternities. March Valentino and Henry Ellis, the two youths who were expelled by resolution of the Sacramento board last Thursday night, applied for an injunction restraining the board, Superintendent of Schools O. W. Peckham and Principal Frank Trade of the Sacramento High School from carrying out the provisions of the resolution into effect.

Life Is Too Short For "Haggling"

LIFE is too short for "haggling." We destroy all cause for "haggling" by treating our patrons conscientiously. Those who have once dealt with us are our best friends, and confidently accept our statement. Whenever a man leaves our shop he leaves in a good humor.

The popularity of our \$20 suits continue, while the lower-priced garments are holding their own. These cooler fall days are calculated to bring the subject of clothes forcibly to the mind.

BACON BLOCK WASHINGTON STREET

And Valentine joined one of the "frats." It is out of the question to test the validity of the prohibitory order by bringing the question into court for adjudication.

All the fraternities and sororities in the Sacramento High School have promised March and Valentine both their moral and financial support in fighting the case out before the courts.

THE IRISH ROOSEVELTIANS.

If gratitude to the Democratic party for its opposition to know-nothingism was, fifty years ago, a virtue strong enough to make Irish men support that party in its deplorable alliance with slavery, surely the obligation is not binding now when an attempt is made to restore the worst features of the accused system, and when our best friend today is fighting the battle of humanity and justice against that attempt. Daniel O'Connell sternly refused to accept for Ireland's cause the donations sent him from New Orleans, saying that he would not purchase the freedom of his country with money wrung from the toll of slaves. How much less can the present workmen of the North uphold the party which would virtually re-establish slavery, or ally them with a party that upholds distinctions based on race or color? We had an excuse, however strained, for doing it fifty years ago, and we contradicted the specious excuse by fighting bravely to sustain the Union. The Democratic machine rewarded us properly after the war by giving a pace of honor to the infamous know-nothing, Governor Gardner. Gardner, the man who had disbanded Irish regiments in this State because they were made up of men of foreign birth.
